

Ron DiRito

Chair, Studio Arts Division & Photo/Video/Film Program Coordinator

March 12, 2018

The name of our concentration has changed. It is now Photo/Video/Film. This changed was approved by NASAD in the fall of 2017. Our program competencies have also changed. They are:

Core Competencies for the Photo/Video/Film Concentration

Upon completion of our program in the Photo/Video/Film concentration students will:

- Demonstrate a broad knowledge of imaging media, technologies and aesthetics.
- Demonstrate an ability to work with a variety of imaging processes to successfully plan, design, create, and complete individual projects, to articulate and communicate their ideas or the ideas of others.
- Demonstrate a proficiency with a range of imaging technologies and media platforms to present their works.
- Demonstrate an ability to conduct research, analyze their work and the work of others that is insightful with an awareness of historical and contemporary precedents.
- Demonstrate the ability to apply concepts and embrace multiple points of view and interpretations.
- Demonstrate effective written and verbal communication.
- Demonstrate an awareness and ability to employ professional standards across media and platforms.
