**Animation + Interactive Media**

**AN200  Animating Facts, Issues and Events  3 credits**
Beginning with examination of how information is presented in time based media, documentary structures and techniques, students complete a series of exercises crafting animated visuals to accompany existing expository audio tracks (for example: lectures, interviews or historical recordings). Students will then research, create scripts, conduct interviews (if needed), storyboard, and develop short illustrative documentaries or educational animations. Visuals may include character and background designs as well as animated text, charts, scientific visualizations, and graphics. Emphasis will be on employing cinematic language to effectively illuminate and clarify the text or story of real or proposed information, processes, truths, structures, or events. Students may elect to work in teams on projects for this course.

Prerequisites: Animation: Traditional to Digital
Fulfills: A+IM 200-Level Elective (Animation Students); Studio Elective

**AN205  Animation: Pre-Production  3 credits**
This course focuses on the behind-the-scenes aspects of developing animation projects, including a variety of technical and non-technical production issues. Topics include story and character development, bibles, turnarounds, character and background design, storyboarding and animatics.

Prerequisites: Life Drawing I
Fulfills: A+IM 200-Level Elective (Animation Students); Studio Elective

**AN210  Stop Motion Animation  3 credits**
In Stop Motion animation, physical objects are moved in small increments between individually photographed frames, creating the illusion of movement when played back at 24 frames per second. During the first weeks of the semester, students explore this phenomenon by creating simple narratives using a copy stand, torn paper and found objects. Building on these exercises they explore performative storytelling by constructing armatures - adding foam, fabric, plasticine clay and found materials - to develop an articulated and expressive character. Small teams of students then work together to complete walk-cycles and gesture studies. Later in the semester, the teams experiment with simple set design/construction, camera and lighting techniques - leading to the creation of a storyboard and production plan for a short project.

Prerequisites: 15 Credits
Fulfills: A+IM 200-Level Elective (Animation Students); Studio Elective

**AN220  Animation: Traditional to Digital  3 credits**
This interdisciplinary course begins with a brief overview of the history of animation using drawing exercises involving storytelling, character development and bringing pictures to life with mechanical animation devices such as Thaumatropes and Zoetropes. Students will then translate the tradition of hand drawn cell animation to digital tools by using a variety of techniques to create motion on a computer screen: drawing, collage, stop motion, rotoscoping and the incorporation of video and sound. Emphasizing planning, storyboards and time management, each student will finish the course with a completed short animation.

Prerequisites: Drawing I or Permission of Instructor; Co-Requisite: Drawing I for 1st Semester Freshmen
Fulfills: A+IM Requirement (Animation students); Lens, Technology, Time Elective; Graphic Design Elective (Graphic Design students); Time Based Media Elective (Photography students); Digital Media Elective (Interdisciplinary Arts students); Studio Elective

**AN225  2D Character Animation  3 credits**
This course provides students with the opportunity for in-depth study of 2D Character Animation using both hand drawn and digitally generated imagery. Through work with live models, field research and in-class improvisational acting, students develop sketches, model sheets, turnarounds, walk-cycles, lip-syncs and animated sequences of original characters in a variety of action/reaction situations.

Prerequisites: 15 Studio Credits, including Animation: Traditional to Digital or Permission of Instructor
Fulfills: A+M 200-Level Elective (Animation Students); Illustration Elective (Illustration students); Studio Elective
AN235  3D Modeling and Animation  3 credits
Students explore the expressive possibilities of the 3D animation environment through a variety of narrative and thematic assignments. Virtual objects are modeled and placed into scenes that are then textured, animated and rendered. An emphasis on planning, and project management strengthens the storytelling possibilities created by integrating the motion of objects, cameras, lighting and sound.
Prerequisites: None
Fulfills: A+IM Requirement (Animation students); Graphic Design Elective (Graphic Design students); Time Based Media Requirement Elective (Photography students); Digital Media Elective (Interdisciplinary Arts students); Digital Sculpture Requirement Elective (Sculpture Students); Studio Elective

AN240  3D Character Animation  3 credits
Students work with meshes, rigging and skinning to develop the initial skills for 3D character animation. Simple characters are created and then moved through a series of exercises based on traditional animation principles. Emphasis is on structure, planning and process documentation. Students will explore a variety of thematic assignments and finish the course with several character animation studies.
Prerequisites: 15 Studio Credits, including LTT Elective or Permission of Instructor
Fulfills: A+IM 200-Level Elective (Animation Students); Graphic Design Elective (Graphic Design students); Digital Media Elective (Interdisciplinary Arts students); Digital Sculpture Requirement Elective (Sculpture students)

AN250  Animating Stories  3 credits
Students explore story development as it relates to animation and the moving character learning the nuances of the 12 principles of animation and how to better use them for narrative effects. Students tackle a variety of projects that test their ability to integrate dramatic pacing and shot choices creating a visual dialogue with the audience. The course ends with students using 2D animation tools to build characters and develop short-form animated storylines.
Prerequisites: 15 Studio Credits, including Animation: Traditional to Digital or Permission of Instructor
Fulfills: A+IM 200-Level Elective (Animation Students); Illustration Elective (Illustration students); Studio Elective

AN255  Puppets  3 credits
This course will introduce the methods and processes of building sturdy and movable character puppets. While there is a particular emphasis on creating characters for stop motion animation, students interested in more traditional puppet performance can also benefit from the variety of assembly techniques explored. Topics covered include armature building, simple performative storytelling, character creation, basic sewing, and construction with foam, plasticine clay and found materials. Students will also explore digital and 3d printing tools to develop iterative features and lip-syncing for stop motion animation.
Prerequisites: None
Fulfills: A+IM 200-Level Elective (Animation Students); 200-Level Sculpture Elective (Sculpture Students); Studio Elective

AN260  Digital Sculpture  3 credits
This course introduces various techniques for creating sculptural projects using 3-D printed objects. Students explore contemporary and experimental uses of digital 3-D printing including prototype development, toy making, composite form and hybrid imaging, narrative, multiples, mold making and the use of schematics to create proposals for large-scale sculptures. Students will spend time in class learning tools, and developing and discussing projects ideas. 3D Printing and actual project development will occur outside of class time.
Prerequisites: 3-Dimensional Design or by Permission of Instructor
Fulfills: A+IM 200-Level Elective (Animation Students); Digital Sculpture Elective (Sculpture Students); Studio Elective

AN299  Topics in Animation  3 credits
This course provides an in-depth study of a topic in animation. The topic may be selected to take advantage of special events, to allow further exploration of a subject covered in a preliminary way in other courses, or to explore areas not sufficiently covered by the regular class rotation.
Prerequisites: To be developed in conjunction with the course description for each topic.
Fulfills: A+IM 200-Level Elective (Animation Students); Studio Elective
AN300  Motion Design  3 credits
In this course, students use digital visual effects, motion graphics, and compositing tools to create and enhance video, animation, static design elements and typography for cinema, television, user interfaces and web applications. Topics such as timing, rhythm, and contrast are examined as they relate to creating unique design for a specific audience. In addition, students engage with professional use of type, sound and design principles to effectively communicate ideas. This course has a heavy emphasis on critique and the development of a critical vision with regard to motion design.
Prerequisites:  45 Credits
Fulfills:  A+IM 300-Level Elective (Animation Students); 300-Level Studio Elective

AN305  Animation and Interactive Media Projects I  3 credits
This is an opportunity for advanced students to work independently or in small groups in a structured critical environment. The final project of this course is a public presentation incorporating one or more of the following forms: 2D or 3D Animation, interactive media or web authoring.
Prerequisites:  15 Studio Credits; At least one of the following: Animation: Traditional to Digital; Animation 3-D; Web Authoring I; Interactive Design
Fulfills:  A+IM Requirement(Animation students); 300-Level Studio Elective

AN310  Animation and Interactive Media Projects II  3 credits
This is an opportunity for advanced students to continue to work independently or in small groups in a structured critical environment for an additional semester. The final project of this course is a public presentation incorporating one or more of the following forms: 2D or 3D Animation, interactive media or web authoring.
Prerequisites:  Animation and Interactive Media Projects I
Fulfills:  A+IM 300-Level Elective (Animation students); 300-Level Studio Elective

AN315  The Exquisite Frame  3 credits
This course will offer students the opportunity to bring their own sense of artistic experimentation into animation, getting away from the conventional tracks of cartooning and story arcs, working with alternative approaches, such as incorporating found footage, using small gauge film manipulation, collaborative work, pixilation, painted image sequences, etc. Students will explore employing a thesis as the core of their work, through abstract and experimental short and long form animations, as well as readings on specific media concerns. Students will leave with a body of work that focuses on the message of the film as much as the aesthetic involved.
Prerequisites:  Animation: Traditional to Digital and 45 credits, or Permission of Instructor
Fulfills:  AI+M 300-Level Studio Elective (Animation Students); 300-Level Studio Elective

AN320  Kinetic Drawing  3 credits
This course develops and refines the drawing abilities specifically needed in the animation, illustration and gaming industries. Utilizing both human and non-human models, in-class exercises and assignments focus on the movement of form, and the relationship between weight, speed and motion. Building on the observational skills in prerequisite courses, students work from gesture to stylized renderings, depicting fluid motion in a convincing and efficient manner. Off campus field research may supplement studio activities.
Prerequisites:  Drawing I, Life Drawing I or Permission of Instructor
Fulfills:  A+IM 300-Level Elective (Animation students); Advanced Drawing Elective (Illustration Students only), 300-Level Illustration Elective (Illustration Students), 300-Level Studio Elective

AN325  Interactive Design: 3D Game Development  3 credits
This course focuses on the broad issues of game design, particularly tailored towards 3D video games. Through a series of exercises and projects students study and practice the fundamental skills of computer game planning and development while exploring the history and principles of game design.
Prerequisites:  3D Character Animation or 3D Animation and Modeling
Fulfills:  A+IM 300-Level Elective (Animation Students); 300-Level Studio Elective

AN399  Topics in Animation  3 credits
This course provides an in-depth study of a topic in Animation. The topic may be selected to take advantage of special events, to allow further exploration of a subject covered in a preliminary way in other courses, or to explore areas not sufficiently covered by the regular class rotation.
Prerequisites:  To be developed in conjunction with the course description for each topic.
Fulfills:  A+IM 300-Level Elective (Animation students); 300-Level Studio Elective
AN405  Senior A+IM Seminar  6 credits
In this course students complete independently generated animation or interactive projects. Guided by an instructor, students create a comprehensive body of work which explores a specific field of animation or interactive media. Particular attention is paid to the workflow and timeline of professional level work, and a thorough understanding of the market for such projects. Students work in their studios and participate in weekly group and/or individual critiques with the instructor. Specific business practices will be addressed throughout the semester through group discussions and readings. Senior A+IM Seminar is a two-semester requirement.

Prerequisites:  90 Studio Credits; Animation and Interactive Media Projects I; At least one of the following: Animation: Traditional to Digital; Animation 3-D; Web Authoring I
Fulfills:  A+IM Capstone Requirement (A+IM Students); Book Arts Capstone Requirement (Book Arts Students); Interdisciplinary Capstone Requirement (Interdisciplinary Students)
Art Education

AE205  Writing and Reading Workshop for Art Educator  1.5 credits
This 1.5-credit course offers students the opportunity for individualized study in grammar and mechanics, writing summaries and essays, vocabulary building and reading comprehension in order to prepare for the Massachusetts Tests for Educator Licensure. Students will meet twice a week to practice skills introduced in class. This course is an elective open to all students who wish to improve their writing, professional communication, and literacy skills. It will be required for all art education students prior to completing AE330 Methods: Media, Forms and Ideas in Art Education. Students intending to complete the Art Education Initial Licensure Program, must receive a grade of 'B-' or higher in this course before entering AE420 Curriculum Design & Pre-Practicum.
Prerequisites: English Composition I and II
Fulfills: Art Education Requirement (Art Education Students must obtain a minimum grade of 'B-')

AE320  Perspectives in Art Education  3 credits
This introduction to the field of Art Education provides the theoretical framework for work as an art teacher. Through readings, papers and in-class participation, areas of cognitive growth and creative development are reviewed with an eye to understanding how they affect artistic development and the teaching of art. Both historic and current points of view in art education are explored. The Massachusetts Arts Curriculum Frameworks are also introduced. Three site observations of art classes are required. Students intending to complete the Art Education Initial Licensure Program, must receive a grade of 'B-' or higher in this course before entering AE420 Curriculum Design & Pre-Practicum.
Prerequisites: English Composition I and II; Art History Origins, Art History Modern Developments
Fulfills: Perspectives in Art Education Requirement (Art Education Students must obtain a minimum grade of 'B-') and Liberal Arts Elective

AE330  Methods: Media, Forms and Ideas in Art Ed  3 credits
This studio-based course provides future art teachers an opportunity to work with the materials most often used with children, pre-K through 12, in classroom and community settings. Students explore themes current in art education today and develop lessons based upon specific content areas. Critical and creative thinking as addressed in the Massachusetts Arts Curriculum Frameworks is utilized in all methods work. As a part of this course students are required to conduct 15 hours of field experience, observing art classes in elementary, middle and high schools. These 15 hours of field experience are applied toward the total 75 hours of pre-practicum experience required for Teacher Licensure in the state of Massachusetts. Students intending to complete the Art Education Initial Licensure Program, must receive a grade of 'B-' or higher in this course before entering AE420 Curriculum Design & Pre-Practicum.
Prerequisites: A grade of B- or better for Perspectives in Art Education or Permission of Instructor
Fulfills: Methods: Media, Forms and Ideas Requirement (Art Education Students must obtain a minimum grade of 'B-') and Studio Elective

AE350  Current Issues in Art Education  3 credits
This course provides the opportunity for students to explore current issues in education. Guest lecturers form an integral part of the course and a variety of independent and group work related to the issues examined complete the course. Students develop a deeper understanding of critical and social issues and their impact on the Pre-K through 12 educational processes. Content areas explored recently included: special education, bullying in the schools and leadership in education. The content is reviewed and updated annually.
Prerequisites: English Composition I and II; Art History Origins, Art History Modern Developments
Fulfills: Current Issues in Art Education Requirement; Humanities Elective; Liberal Arts Elective
AE360  Teaching Students with Disabilities  3 credits
This course will introduce the historical, legal, and social aspects of educational access for students with disabilities in the United States. The goal of the course will be to understand the processes involved in creating an education plan and implementing academic accommodations for students with physical, sensory, psychological, learning, and social disabilities. Strategies for teaching gifted students will also be covered. Field observations will complement in-class lectures, discussions and small-group assignments. Assessments will include reading assignments, fieldwork journals and reports, oral presentations and a research paper. Students intending to complete the Art Education Initial Licensure Program, must receive a grade of ‘B-’ or higher in this course before entering AE420 Curriculum Design and Pre-Practicum.
Prerequisites: A grade of B- or better for Perspectives in Art Education or Permission of Instructor
Fulfills: Teaching Students with Disabilities Art Education Requirement; Liberal Arts Elective

AE399  Topics in Art Education  3 credits
This course provides an in-depth study of a topic in Art Education. The topic may be selected to take advantage of special events, to allow further exploration of a subject covered in a preliminary way in other courses, or to explore areas not sufficiently covered by the regular class rotation.
Prerequisites: Prerequisites will be developed in conjunction with the course description for each topic.
Fulfills: Liberal Arts Elective

AE420  Curriculum Design and the Pre-Practicum  3 credits
This course combines a weekly seminar with 60 hours of pre-practicum field experience (approximately 5 hours per week). Students examine art teaching and curriculum as they study methods of instruction and evaluation. They learn to write curriculum objectives, units and lesson plans with emphasis on Licensure Standards and the Massachusetts Arts Curriculum Frameworks. Field experience provides students with the opportunity to implement the skills they are developing and prepares them for their practicum placement.
Prerequisites: A grade of B- or better in Perspectives in Art Education; Methods: Media, Forms and Ideas in Art Education; and Psychology and Diversity Requirements; Acceptance into the Art Education Program.
Fulfills: Art Education Requirement (Art Education Students), Internship Requirement (except Graphic Design concentrators) and Liberal Arts Elective.
AE460 Teaching Practicum and Practicum Seminar 12 credits

Teaching Practicum – Student Teaching (Pre-K-8; 5-12)

Students spend 300 on-site hours observing, assisting, and teaching with a Supervising Practitioner in elementary, middle or high school art classes. Skills of planning, management, communication, assessment, self-evaluation, and collaboration as addressed in Massachusetts Arts Curriculum Frameworks are developed and refined with the guidance of both the Supervising Practitioner and the Program Supervisor. Methods to adapt instruction for exceptional students are implemented and assessed. A minimum of three official evaluations with both the Supervising Practitioner and the Practicum Supervisor is required. This course is taken with Practicum Seminar. See below for prerequisites.

Practicum Seminar in Art Education

Student teachers meet with their Program Supervisors and in their peer groups to prepare for their roles as art teachers. Tasks set forth in the seminar enable students to adapt to the unique demands of each practicum site and to collaborate with their Supervising Practitioner in writing, planning, communication, and assessment. The Program Supervisor evaluates students formally in relation to Massachusetts Arts Curriculum Frameworks and the Professional Standards for Teachers. Issues of professional development, licensure, and preparation for job interviews are also addressed. A Practicum thesis exhibition is designed, planned and installed by the student teachers. Taken in conjunction with the Art Education Teaching Practicum.

The Commonwealth of Massachusetts requires that the pre-practicum field experience be a minimum of 75 hours in schools with a variety of students including, but not limited to, special needs students as well as those of different gender, race, linguistic and socioeconomic backgrounds. Practicum requires 300 hours of on-site observing, assisting and teaching.

Prerequisites:  A grade of B- or better in Perspectives in Art Education; Methods: Media, Forms and Ideas in Art Education; Teaching Students with Special Needs; Curriculum Design & Pre-Practicum; and Psychology and Diversity Requirements; passing scores on the Massachusetts Tests for Educator Licensure and

Fulfills:  Practicum/Practicum Seminar Requirement (Art Education Students)
Art History

AH100  Art History Origins: Pre-History to 19th Century  3 credits
This course introduces students to a variety of theoretical, analytical and critical means for approaching art, through the study of examples of art and architecture from different cultures and historical periods spanning prehistory to the nineteenth century. Students learn to observe attentively, to describe thoroughly and to analyze critically through directed in-class discussions and writing assignments. Topics may include: analysis of period styles; interpreting subject matter and symbolism; examining the social functions of art and art-making in various historical times and cultures; and evaluating the role of the historian and critic. Students must earn a grade of C- or better in this course to enter Art History Modern Developments. Art History Minor students must earn a cumulative grade point average of 3.0 or higher in all art history courses.
Prerequisites:  None
Fulfills:  Art History Origins: Pre-History to 19th Century Requirement (grade of C- or higher required)

AH205  Art History Modern Developments  3 credits
Building on the fundamental concepts of Art History Origins, this course surveys major movements in modern art and visual culture. The course will examine an arc that begins with the role of key European art centers in the nineteenth-century, followed by the ascendance of other major art centers and movements throughout the world, from Europe, Asia, Africa and the Americas. In addition to exploring how different forms participate in an increasingly global dialog about art and culture, this course furthers the practice of visual analysis and analytical writing begun in Art History Origins and includes visits to area museums. Individual sections of this class may have a specific thematic focus announced in advance by the faculty member teaching that section. Art History Minor students must earn a cumulative grade point average of 3.0 or higher in all art history courses.
Prerequisites:  English Composition I and II, Art History Origins ( all with grade of C- or higher)
Fulfills:  Art History Modern Developments Requirement

AH310  Art and Gender  3 credits
This course looks at art and gender through several lenses: The art by and about women during select points in history and on different continents; The social, economic and political factors that determined gender roles in the arts; The evolution, application and reception of feminist art theory; Contemporary art and theory that offer new ways to represent, define and think about gender, including gay, lesbian, bisexual, transgender and queer perspectives on identity, masculinity and femininity. Art History Minor students must earn a cumulative grade point average of 3.0 or higher in all art history courses.
Prerequisites:  English Composition I and II, Art History Origins, Art History Modern Developments
Fulfills:  Art History Elective, Humanities Elective, or Liberal Arts Elective; Art Education Diversity Requirement

AH315  Art of the Italian Renaissance  3 credits
This course is a survey of Italian art and architecture from the 14th through the 16th centuries. It includes a brief examination of Italian Mannerism and the contributions of the artists associated with the Renaissance in northern Europe. Art History Minor students must earn a cumulative grade point average of 3.0 or higher in all art history courses.
Prerequisites:  English Composition I and II, Art History Origins, Art History Modern Developments
Fulfills:  Art History Elective, or Liberal Arts Elective, or Humanities Elective

AH322  American Art (Colonial Period to 1945)  3 credits
This course is a survey of painting, sculpture, photography and the decorative arts of the United States, from the Colonial Period to 1945. American art will be seen against the evolving social and political background that marks the growth of a nation. Art History Minor students must earn a cumulative grade point average of 3.0 or higher in all art history courses.
Prerequisites:  English Composition I and II, Art History Origins, Art History Modern Developments
Fulfills:  Art History Elective, or Liberal Arts Elective, or Humanities Elective
AH324  Realism, Impressionism, Post-Impressionism  3 credits
Designed to use area art collections, this course surveys major artistic styles in the last half of the 19th century. While the focus is European art, related styles in North America are included. Starting with the Realism of Courbet and Eakins, students trace artistic developments through Impressionism, in France and abroad, to the roots of Modernism in the art of the Post-Impressionist. The role of photography and the impact of non-Western art on the evolution of Modernism also receive consideration. Art History Minor students must earn a cumulative grade point average of 3.0 or higher in all art history courses.
Prerequisites:  English Composition I and II, Art History Origins, Art History Modern Developments
Fulfills:  Art History Elective, Humanities Elective or Liberal Arts Elective

AH328  Art of Asia and the Pacific  3 credits
This course is a survey of the art of Asia and the Pacific islands as an interrelated group of cultural and geographic regions. The course will potentially include the art of East Asia (China, Korea, and Japan), Southeast Asia (including Thailand, Cambodia, Vietnam, and Indonesia), India and the Himalayas, and selected groups in the Pacific islands. The motives, materials, methods and aesthetics of Asian and Pacific art will be analyzed, compared and contrasted, including evaluation for content, context, technique, and style. Individual instructors may choose to give greater emphasis to one or more specific regional traditions.
Prerequisites:  English Composition I and II, Art History Origins, Art History Modern Developments
Fulfills:  Art History Elective, or Liberal Arts Elective, or Humanities Elective

AH331  Neoclassicism and Romanticism  3 credits
This course surveys the major artistic styles of the first half of the 19th century in Europe and North America. Starting with the Neoclassicism of David, this course then examines Romanticism in Europe, from Friedrich to Delacroix, and in America, from Cole to Homer. Students consider the effects of encounters between the Old World and the New in America, and the clash of tradition and innovation in 19th-century Europe. Art History Minor students must earn a cumulative grade point average of 3.0 or higher in all art history courses.
Prerequisites:  English Composition I and II, Art History Origins, Art History Modern Developments
Fulfills:  Art History Elective, or Liberal Arts Elective, or Humanities Elective

AH332  Arts of Africa and the African Diaspora  3 credits
This course is a general survey of art from Africa, and the African Diaspora. Beginning with an in-depth study of several African cultures the class will go on to examine art made by persons of African descent from around the world including the Americas and Europe with a focus on contemporary art. Students study music, video, photography, mask making, body decoration, dance, performative arts, textiles, and material culture as well as architecture, painting and sculpture. The course combines art historical and anthropological approaches. Art History Minor students must earn a cumulative grade point average of 3.0 or higher in all art history courses.
Prerequisites:  English Composition I and II, Art History Origins, Art History Modern Developments
Fulfills:  Art History Elective, or Liberal Arts Elective, or Humanities Elective; Art Education Diversity Requirement

AH333  Art of Latin America and the Caribbean  3 credits
This course surveys the history of Latin American art from ancient prehistory through the Conquest of the Americas up to early modernism. It explores the artistic heritage of regions that would become the world’s first global interaction zone—the Caribbean and Latin America. The course begins with the fertile interactions between original Native ethnicities and civilizations, continues through the creative florescence that followed the catastrophic events of the Conquest, and concludes with the rich cultural expressions of present day mestizos, creoles and Chicanos. Through the consideration of the motives, materials, methods and aesthetics of Latin American art, the course will explore characteristic art forms and art techniques of these regions as aesthetic expressions of distinct cultural areas.
Prerequisites:  English Composition I and II, Art History Origins, Art History Modern Developments
Fulfills:  Art History Elective, or Liberal Arts Elective, or Humanities Elective
AH335 History of Photography 3 credits
Since the invention of photography in 1839, the various photo/optical media have dramatically transformed the ways we know the world. In particular, our notions of what is art have been profoundly altered by the camera. This course examines the characteristics of photographed experience primarily from the historical perspective, but also from the cultural, the critical, and the technological perspectives, for a broad understanding of the medium's past and present. Art History Minor students must earn a cumulative grade point average of 3.0 or higher in all art history courses.
Prerequisites: English Composition I and II, Art History Origins, Art History Modern Developments
Fulfills: History of Photography Requirement (Photography Students); Art History Elective, Humanities Elective or Liberal Arts Elective

AH337 Art in the Landscape 3 credits
This course examines the history of art in the landscape from prehistoric earth works to contemporary environmental art. It is a multi- and cross-disciplinary investigation that includes sculpture, architecture, archeology and agricultural practices. It includes garden design and philosophy focusing on European, Islamic, Chinese and Japanese gardens. Funerary monuments, shrines and outdoor mortuary complexes are included, as are portable shelters and other temporary (and permanent) structures from Africa and North America. The course questions the understanding of nature and of place that has informed the construction of landscapes and a changing definition of art. Visits to local sites and an exhibition of outdoor contemporary sculpture are part of the course. Art History Minor students must earn a cumulative grade point average of 3.0 or higher in all art history courses.
Prerequisites: English Composition I and II, Art History Origins, Art History Modern Developments
Fulfills: Art History Elective, Humanities Elective or Liberal Arts Elective

AH338 Art and Architecture of Etruscans (Viterbo) 3 credits
This course is administered by the director of the Italy Program. This course provides an introduction to the art and architecture of the Etruscans. This class format is a combination of slide lectures and walking tours of extant art and monuments. Day trips to the town of Tarquinia, known for its archeological museum and its painted Etruscan tombs, and to the renowned Etruscan burial grounds of Cerveteri provides students with firsthand knowledge of the art and ritual practices of the fascinating culture. In Rome, walking tours of selected monuments and of the Etruscan collection of the Villa Giulia, demonstrate the impact on the Romans of Etruscan art and life. Art History Minor students must earn a cumulative grade point average of 3.0 or higher in all art history courses.
Prerequisites: English Composition I and II, Art History Origins, Art History Modern Developments
Fulfills: Art History Elective; Humanities Elective or Liberal Arts Elective.

AH339 Native American Art 3 credits
This course is a survey of the Native arts of North America as an interrelated set of cultural and geographic regions. The regional focuses will include the Eastern Woodlands and Mississippian cultures; the Great Plains and Great Basin; the Southwest Pueblo peoples and California; and the Pacific Northwest and the Arctic. The course will conclude with modern and contemporary Native Arts of North America. Critiquing and contesting the notion of Native American culture as extinct or a pre-Conquest vestige, this course will take a progressive approach to the study of Native American art as a living tradition with roots deep in the pre-colonial past. It will survey the multiple modes of expression that characterize this vast continent.
Prerequisites: English Composition I and II, Art History Origins, Art History Modern Developments
Fulfills: Art History Elective, or Liberal Arts Elective, or Humanities Elective

AH341 African Art in Africa 3 credits
In this course students will have the opportunity to study African art in context. In depth study of several tribal groups will be complimented by visits to major architectural and art historical sites which provide students with first-hand knowledge of the art and rituals of unique and fascinating cultures. The course combines art historical and anthropological approaches, and will include study of masking, body decoration, fabric design, dance, ritual performance and material culture, as well as architecture, painting and sculpture. The class format is a combination of slide lectures, field trips and visits to area museums.
Prerequisites: English Composition I and II, Art History Origins, Art History Modern Developments
Fulfills: Art History Elective, Humanities Elective, Liberal Arts Elective, Art Education Non-Western Art Requirement Elective
AH344 Islamic Art and Architecture 3 credits
This class is an overview of Islamic art (sculpture, architecture, painting, decorative arts and popular culture) from its formation in the Seventh Century to the present. The course follows the geographic spread and regionalization of Islamic traditions, including cultural exchange throughout the Mediterranean, Asian, and African worlds, with attention to how stylistic developments reflect the many contexts within which specific forms emerged. Students will become familiar with the major tenets of Islam as well as the intersection of cultural, social, and religious traditions reflected in Islamic art and architecture.
Prerequisites: English Composition I and II, Art History Origins, Art History Modern Developments
Fulfills: Art History Elective, Liberal Arts Elective or Humanities Elective; Art Education Diversity Requirement.

AH345 Buddhist World Art 3 credits
This class is an overview of Buddhist art (sculpture, architecture and painting) from its birth in South Asia through its spread to South East Asia, Central Asia and East Asia. To bring the art to life, we take a field trip to the MFA, Boston - once home to leading South Asian scholar and curator Ananda K. Coomaraswamy-or, to the Peabody Essex Museum in Salem. Art History Minor students must earn a cumulative grade point average of 3.0 or higher in all art history courses.
Prerequisites: English Composition I and II, Art History Origins, Art History Modern Developments
Fulfills: Art History Elective, Liberal Arts Elective or Humanities Elective; Art Education Non-Western Requirement.

AH346 The Greco-Romans: Greece, Italy, and Beyond 3 credits
Examining the cross-cultural influences in the ancient Mediterranean world (600 BC-330 AD), this course will focus on the impact and transformation of Greek and Roman civilizations over the course of almost a millennium of history while they dominated the ancient world. In addition to discussing the art and architecture of ancient Greece and Rome, the course will explore the complexities of the socio-political and specific historical conditions that allowed for the merging and spreading of a diverse and cosmopolitan civilization known primarily as the Greco-Roman civilization. By familiarizing students with the art, aesthetics and history of Greece and Rome, the course will provide students with an important foundation for understanding art and history.
Prerequisites: English Composition I and II, Art History Origins, Art History Modern Developments
Fulfills: Art History Elective, or Liberal Arts Elective, or Humanities Elective

AH347 Twentieth-Century Architecture and Urbanism 3 credits
An introduction to the major developments in architecture and urban planning from approximately 1900 to 2000, this course will present architectural issues and practices through a range of critical and utilitarian vantage points, with a particular focus on modernism. Lectures and assignments will consider the ideologies that led to the creation of landmark buildings and urban spaces, including ideas generated by post-modernism, in the context of an examination that takes into account social, economic, and political issues in addition to aesthetics and space. Topics will include architect-client relationships, connections to art historical and literary trends, historical prototypes, and the values and problems that have engaged architects over the course of the century. Class lectures will be supplemented with tours of architecture in downtown Boston and historic homes in Greater Boston.
Prerequisites: English Composition I and II, Art History Origins, Art History Modern Developments
Fulfills: Art History Elective, or Liberal Arts Elective, or Humanities Elective

AH348 Dada and Surrealism 3 credits
Dada and Surrealism are two interrelated movements that are crucial to the understanding of both Modernism and postmodernism. Looking into the art, literature, philosophies and film of international Dada and Surrealist artists from World War I to the years immediately following World War II, this course will focus initially on New York Dada, moving on to Berlin and Cologne Dada, and Dada and Surrealism in France. The course will include a sustained examination of female surrealist artists as well as the effects of the World Wars and the burgeoning field of psychology on the creative process and concerns of this generation of artists. Films by surrealists and later filmmakers will be screened as the class examines the lasting legacy of both Dada and Surrealism.
Prerequisites: English Composition I and II, Art History Origins, Art History Modern Developments
Fulfills: Art History Elective, or Liberal Arts Elective, or Humanities Elective
AH350  Art and Design  3 credits
This course examines intersecting histories of art and design, from the mid-nineteenth century to the present. Debates about design and industry sparked by the Crystal Palace exhibition provide a starting point for considering the social, political, cultural, and technological forces underpinning sometimes intertwined and also divergent histories of design and art. Dreams of total design, from the Arts and Crafts movement to Constructivism and the Bauhaus, are one important focus. The course also looks at the integration, as well as the separation, of art and design in museums and other institutions. An exploration of current issues includes recent artists who function akin to designers in the range of their production, and the impact of celebrity culture on both art and design.
Prerequisites: English Composition I and II, Art History Origins, Art History Modern Developments
Fulfills: Art History Elective, or Liberal Arts Elective, or Humanities Elective

AH353  History of Animation  3 credits
Animation has been an important part of screen history since the earliest days of film in the late 19th century. Locating animation within film history and evolving socio-political historical contexts, this course explores the development of animation styles, aesthetics, modes of production, and viewership to consider how animated works have fulfilled entertainment, educational, artistic, commercial, and propagandistic purposes. Major national and international figures and studios are covered, as are major visual and narrative styles, from the earliest hand-drawn to CGI animated works.
Prerequisites: English Composition I and II, Art History Origins, Art History Modern Developments
Fulfills: Art History Elective, or Liberal Arts Elective, or Humanities Elective

AH354  History of Film  3 credits
This course introduces the medium of the film (cinema) as a mode of communication and as an art form. Recognizing the complexity of the medium, the course will use an interdisciplinary approach. Among the topics considered in relation to the study of film are communications theory, aesthetics, psychology, business, politics, and national experience. The course is international in scope and covers such historical movements as Expressionism, the Film Noir, New Wave, and other important genres.
Prerequisites: English Composition I and II, Art History Origins, Art History Modern Developments
Fulfills: Art History Elective, Humanities Elective or Liberal Arts Elective

AH355  Contemporary Art in a Global Perspective  3 credits
This course focuses on practices that shape the art world of the present moment. One important theme is the international nature of the contemporary art world. The global biennial phenomenon and a related expansion in the number of museums of contemporary art indicate art's growing reach, yet a close examination of these trends also reveals the ongoing stratification of the art world. It is equally crucial to examine changes in production and reception, as artists continue to explore and combine traditional and newer media.
Prerequisites: English Composition I and II, Art History Origins, Art History Modern Developments
Fulfills: Art History Elective, Humanities Elective or Liberal Arts Elective

AH356  Modernism and Abstraction in Art and Culture  3 credits
This course traces radical transformations in art and culture in the late nineteenth and twentieth century. Starting with modernist manifestos, it will explore new responses to a rapidly changing world. The historical and theoretical development of abstraction will be one major focus, with transformations in the visual arts viewed in the context of related experimentation in other forms, including literature, music, dance, and architecture. An equally important investigation of midcentury modernism will emphasize both the integration of art and design and the rise of modernist movements in different parts of the world.
Prerequisites: English Composition I and II, Art History Origins, Art History Modern Developments
Fulfills: Art History Elective, Humanities Elective or Liberal Arts Elective
AH357  Art and Consumer Culture  3 credits
Exploring the role of art in a consumer culture, this course will examine artistic responses to major shifts in the production, reproduction, and circulation of images and information. A sustained examination of pop art will be one aspect of a broader consideration of the interplay between critique and embrace of commercial imagery. The development of an art-world star system, and the contributions of pop art and more recent strategies of appropriation to the expansion of the contemporary art market will be important areas of exploration. Readings and discussions will also encourage examination of ever-evolving strategies of resistance to commercialization.
Prerequisites:  English Composition I and II, Art History Origins, Art History Modern Developments
Fulfills:  Art History Elective, Humanities Elective or Liberal Arts Elective

AH360  Theories of Art  3 credits
Theories of art examines the history of ideas that have shaped art practices and their interpretation. Foundational texts include historical writings from Pliny to Panofsky. Twentieth and twenty-first century criticism by artists as well as theorists will be examined in depth. The course introduces all students to the philosophical underpinnings of art making, and it provides art history minors with a foundation in art-historical methodology. Art History Minor students must earn a cumulative grade point average of 3.0 or higher in all art history courses.
Prerequisites:  English Composition I and II, Art History Origins, Art History Modern Developments
Fulfills:  Art History Minor Requirement; Art History Elective; Humanities Elective; Liberal Arts Elective

AH399  Topics in Art History  3 credits
This course provides an in-depth study of a time period or topic in Art History. The topic may be selected to take advantage of special exhibitions or events, to allow further exploration of a subject covered in a preliminary way in other courses, or to explore areas not sufficiently covered by the regular class rotation. Art History Minor students must earn a cumulative grade point average of 3.0 or higher in all art history courses.
Prerequisites:  English Composition I and II, Art History Origins, Art History Modern Developments
Fulfills:  Art History Elective, Humanities Elective or Liberal Arts Elective
Book Arts

BA225  Forms and Cultures of the Book  3 credits
Historical and critical dimensions of the book and other vehicles for the recording and transmission of textual and visual information, in Western and non-Western settings. Topics include book structures; genres/categories of books; and the present status of the book and its relationship to emerging and competing and/or complementary media. About a third of the course is devoted to the book and print culture of the last century or so, including the livre d’artiste, the literary small press movement, and the artists’ book. The course involves (1) lectures and demonstrations; (2) field trips; (3) a fair amount of reading; and (4) a term paper and other writing/presentation assignments.
Prerequisites:  English Composition I and II; Art History Origins, Art History Modern Developments
Fulfills:  Book Arts Requirement (Book Arts students); Graphic Design Elective (Graphic Design Students)

BA270  Engineering Paper  3 credits
This course explores the potential of paper as a material in the creation of kinetic and sculptural works.
Students gain in-depth experience in the physical properties and behaviors of paper, establishing a foundation of skills and competencies necessary for the innovation of new forms and the expression of concepts within creative works. Books play a central role in the presentation of new techniques, which include: pop-up construction, classical and non-traditional origami, packaging, and a variety of historical forms such as folded maps and volvelles. Class time is divided among hands-on demonstration, studio time, and lectures focusing on fundamental concepts and the historical and contemporary uses of paper in the arts.
Prerequisites:  Drawing I, 2D Design and LTT Elective; or Permission of Instructor
Fulfills:  Book Arts Elective (Book Arts Students), Graphic Design Elective (Graphic Design Students), Printmaking Elective (Printmaking Students), Studio Elective

BA250  Bookmaking in Japan  3 credits
In this course students learn the techniques of Japanese style bookbinding, including accordion and side-stitched books. Students will be introduced to the history and aesthetics of Japanese books, as well as contemporary artists who use the techniques in an expanded manner. Emphasis will be placed on individual development of content and imagery within use of traditional materials and methods. Assignments will include observation and documentation based directly on students' experiences of living and traveling in Japan.
Prerequisites:  None
Fulfills:  Book Arts Elective (Book Arts Students); Studio Elective

BA260  Introduction to Letterpress Printing  3 credits
This course is an introduction to the process of letterpress printing. The narrative and conceptual potentials of letterpress will be addressed as well as the technical skills necessary to produce well-crafted print pieces. Students work through setting type; proper use of all the different presses in the College's letterpress shop; registration and imposition; study of the history of metal and wood type. Projects may include a group broadside, individual (announcement or business) cards, one and multicolor posters, and small pamphlets. Individual and more complex projects may be possible if time allows.
Prerequisites:  None
Fulfills:  Book Arts Requirement (Book Arts Students); Graphic Design Elective (Graphic Design Students) or Printmaking Elective (Printmaking Students); Studio Elective

BA265  Bookbinding I  3 credits
This course reveals the book as structure, object, and conveyor of information. Students learn to create a variety of traditional and contemporary bookbindings which form a personal library of structural models. Throughout the course, students are assigned projects centered around developing and incorporating content within books. Craft and content are emphasized equally through in-class and homework projects with additional attention placed on the competent selection and use of materials and tools. Presentations on the history of the book and artists books may be supplemented by field trips to working print shops, binderies, and studios.
Prerequisites:  None
Fulfills:  Book Arts Requirement (Book Arts Students); Graphic Design Elective (Graphic Design Students) or Printmaking Elective (Printmaking Students); Studio Elective
BA350  Approaching the Book  3 credits
This course explores book arts as a fundamentally cross-disciplinary creative practice, investigating the potential for "the book" as unique object, multiple, performance, and environment. Through interaction with a diverse range of physical and digital book works, readings, and discussion, students will consider how these ideas have been addressed in the past. Observations will inform the planning and realization of two to three projects focusing on the thoughtful construction and presentation of visual and textual content. Projects progress through idea generation, conceptual development, research, and production. Attention is given to the correlation of concept, content, design, structure, and material; the advancement of descriptive and critical language in the evaluation of books; and the location of book arts within the broader context of contemporary writing and visual art.
Prerequisites:  Bookbinding I, 200-level Studio Elective
Fulfills:  Book Arts Requirement (Book Arts Students); Graphic Design Elective (Graphic Design Students) or Printmaking Elective (Printmaking Students); 300-level Studio Elective

BA360  Advanced Letterpress Printing  3 credits
Building upon the basic skills developed in Introduction to Letterpress Printing, this course will address: further experience in hand-setting type, digital pre-press and the production of photopolymer plates, multi-color/multi-pass printing, imposition in book design and editioning. Students will be introduced to alternative printing techniques such as pressure printing, and explore the use of type as a visual element beyond text. Projects will be greater in complexity, require more attention to detail, and place a stronger emphasis on good design and typography. Coursework will be enriched by the direct examination of examples of printing, and discussion of the history of letterpress printing and its uses in commerce and the arts.
Prerequisites:  Introduction to Letterpress Printing
Fulfills:  Book Arts Requirement (Book Arts Students); Graphic Design or Printmaking Elective (Graphic Design and Printmaking Students); 300-level Studio Elective

BA365  Bookbinding II  3 credits
Drawing upon skills established in Bookbinding I, students investigate complex structural forms as they are introduced to new techniques and traditional materials such as wood, leather, parchment, and handmade paper. The mechanics of book construction and function are more deeply explored through hands-on demonstrations which focus on the evolution of book structure from antiquity through the present day, with an aim towards improved workmanship and expanded technical insight. Discussions address developmental shifts in book structure and their relationship to social and technological influences throughout history. Projects and exercises devote attention to idea generation, creative responses to demonstrations, and building technical and critical vocabularies.
Prerequisites:  Bookbinding I
Fulfills:  Book Arts Requirement (Book Arts Students); Graphic Design Elective (Graphic Design Students); Printmaking Elective (Printmaking Students); 300-level Studio Elective
Foundation

**FN100  Drawing I  3 credits**

Drawing I is a comprehensive course in objective drawing using various media. Concentrating on the formal elements of line, shape, value texture and (limited) color in images drawn from observation, students focus on figure/ground relationships, relative position and proportion, perspective, and light in relation to volume. Throughout the course, students engage with compositional issues, historic and contemporary references, and are expected to find personal solutions to set problems.

Prerequisites: None  
Fulfills: Foundation Studio Base Requirement

**FN111  Painting, Color and Light  3 credits**

Color theory is investigated through studies in various media, the setting up of palettes, mixing mechanics, and sustained painting working from direct observation; subject matter includes the still life, interior, portrait and landscape. Critique, readings, research and slide presentations that focus on the relationships underlying historic and contemporary painting complement the studio work.

Prerequisites: None  
Fulfills: Foundation Studio Base Requirement

**FN115  Two-Dimensional Design  3 credits**

This course introduces traditional two-dimensional design principles to prepare students for advanced study in the visual arts. Through carefully structured problem sequences, students are introduced to basic two-dimensional concepts and progress to more complicated problems involving combinations of color, pattern, and texture.

Prerequisites: None  
Fulfills: Foundation Studio Base Requirement

**FN130  Three-Dimensional Design  3 credits**

Principles of three-dimensional design are presented through a series of projects involving the materials, processes, and content of form to create 3-d objects, both in relief and free standing. Students construct, model and carve basic materials to respond to each given problem, learning the attendant processes, tools, techniques and vocabulary. Issues of design in three dimensions are introduced through images, discussion of historical and contemporary work, and through the critiquing of their own work.

Prerequisites: None  
Fulfills: Foundation Studio Base Requirement

**ID101  FX  3 credits**

This freshman seminar combines studio and art history methodologies to provide students with a holistic introduction to the visual arts, and to help students acclimate and transition to college level academic and studio work. This early interdisciplinary experience lays the foundation for active and critical engagement with all aspects of their artistic education. Offered in the first semester, the course features a structured and interrelated series of lectures, museum/gallery/studio visits, research, writing, and class discussions; these are complemented throughout by hands-on making, team- and individually-based projects, and critiques.

Prerequisites: None  
Fulfills: Foundation Studio Base Requirement
Graphic Design

GD200  Graphic Design I  3 credits
Students develop technical skills and become familiar with basic tools and materials of the graphic designer. Through short projects, emphasis is placed on visual aesthetics, composition, and craft.
Prerequisites: None
Fulfills: Lens, Technology and Time Elective; Graphic Design I Requirement (Book Arts, Graphic Design and Illustration students); Studio Elective

GD205  Graphic Design II  3 credits
Continuing focus on form, communication and problem solving, with emphasis on typography and the use of visual/graphic elements, including icons/symbols, diagrams, drawings and photographs. Throughout the core Graphic Design 1-2-3 sequence, exercises grow in complexity and scale, accompanied by higher expectations about typographic discipline, craft, and inventiveness.
Prerequisites: Graphic Design I and Typography I, or Permission of Instructor
Fulfills: Graphic Design II Requirement (Graphic Design Students) or Studio Elective

GD212  Typography I  3 credits
An intensive introduction to the fundamentals of the manipulation and management of type, from individual letterforms to large bodies of textual information, for digital and paper platforms. Attention to formal, technological, rhetorical, and historical issues. While the focus is on page layout and vector graphics programs, the school's letterpress facilities may also be employed.
Prerequisites: None
Fulfills: Lens, Technology and Time Elective; Typography I Requirement (Graphic Design and Illustration students); Studio Elective

GD214  Using Images  3 credits
An introduction to the borrowing, generation, editing and usage of visuals in design contexts. Emphasis on imaging tools, and on critical and theoretical consideration of the use and ubiquity of images in the world.
Prerequisites: Drawing I, 2-D Design, LTT Elective, or Permission of Instructor
Fulfills: Using Images Requirement (Graphic Design students); Studio Elective

GD216  Design Stories  3 credits
A studio/seminar investigation of the nature and practice of design as a story-telling and framing activity. Within this context, attention is devoted to episodes of design history, to the ways that history has been told, and to design practice as a rhetorical activity. Participation involves research and development and presentation of ideas in a seminar setting in papers, and in design exercises.
Prerequisites: Typography I and Using Images or Permission of Instructor
Fulfills: Design Stories Requirement (Graphic Design students); Studio Elective

GD217  Advertising  3 credits
An overview of the key aspects of the art and industry of advertising, including art direction, strategy, research, copywriting and account management. The emphasis is on idea generation and development in studio projects. Lectures address the broad and ever-changing landscape of advertising. Readings include classic and contemporary sources, which seek to place advertising in the larger cultural, social and economic settings that it both drives and is driven by.
Prerequisites: Graphic Design I and English Composition II
Fulfills: Graphic Design Elective (Graphic Design students); Studio Elective
GD222  The Art and Design of the Poster  3 credits
This course treats the poster format as historical source and contemporary medium of expression and investigation. Class format includes lectures and reading, fieldtrips and studio exercises on digital and analog tools. Analog tools will include letterpress, and raise issues including the relationship of the poster to the typographic broadside; and screenprinting, which will enable printing in multiple colors and large scale. Lectures and studio exercises alike are dedicated to exploring the uses and evolving aesthetics and technologies associated with the poster.
Prerequisites:  12 Studio credits including LTT Elective, or Permission of Instructor
Fulfills:  Graphic Design Elective (Graphic Design students); Studio Elective

GD223  Interactive Design  3 credits
Students explore interactive screen-based media as a design tool and environment. Focus here is on digital creations that embody their own application software, suiting them not only for the web, but for use in CDs and other independent media. Students gain experience with graphics, video, sound, 3D objects, and markup and scripting languages as they consider issues of usability, transitions, duration and motion to create and control meaning. Emphasis on flowcharts and project management.
Prerequisites:  Drawing I, 2-D Design, LTT Elective, or Permission of Instructor
Fulfills:  A+IM Requirement (Animation students); Graphic Design Requirement (Graphic Design students); Studio Elective

GD256  Web Authoring I: Markup & Style  3 credits
Web Authoring 1 is an introductory course to the history of the web, web standards, and authoring hand-coded markup and style for the web ahead. Students learn to read, write, and speak two (2) fundamental web languages, HTML and CSS, to markup and style content from poetry to prose, icons to favicons, charts to infographics and more. Web Authoring 1 focuses on the semantics (isness and aboutness) of content (text and image) and structure (design and form), and the presentation (look and feel) of type, color, and layout for the web.
Prerequisites:  None
Fulfills:  Lens, Technology and Time Elective; A+IM Interactive Design Elective (Animation Students); Graphic Design Requirement Elective (Graphic Design Students); Time-Based Media Elective (Photography Students); Studio Elective

GD299  Topics in Graphic Design  3 credits
This course provides an in-depth study of a topic in Graphic Design. The topic may be selected to take advantage of special events, to allow further exploration of a subject covered in a preliminary way in other courses, or to explore areas not sufficiently covered by the regular class rotation.
Prerequisites:  Prerequisites will be developed in conjunction with the course description for each topic.
Fulfills:  Graphic Design Elective (Graphic Design students); 200-Level Studio Elective

GD300  Graphic Design III  3 credits
In this study of visual communications, students work on concept development and apply the principles of design to several realistic projects that combine type and image. Projects include the design of an identity program and a study of grids and formats through the design of a publication.
Prerequisites:  Graphic Design II and Typography I
Fulfills:  Graphic Design III Requirement (Graphic Design Students); 300-level Studio Elective

GD351  Typography II  3 credits
Attention to structuring information on and across sequences of pages; formal and expressive issues; create documents that are for print and screen.
Prerequisites:  Typography I, Web Authoring I: Markup & Style, or Permission of Instructor
Fulfills:  Typography II Requirement (Graphic Design students); 300-level Studio Elective
GD356  Web Authoring II: Responsive Typography & Design  3 credits
Students build and expand upon the skills and concepts from Web Authoring I to develop web pages rich in typography and imagery, designed to be responsive for “one web” — for all browsers and devices — handheld (mobile), lap (tablet, laptop) and desktop. This intermediate course explores the art and craft of setting responsive web typography (scale and rhythm), using responsive images (sizes and resolutions), and developing responsive grids (fluid and fixed) for one web. Students gain a greater working knowledge of HTML and CSS, as well as an introduction to scripting languages (JS and jQuery) for detecting and adding feature support.
Prerequisites:  Web Authoring I: Markup & Style or Permission of Instructor
Fulfills:  A+IM 300-Level Elective (Animation Students); Graphic Design Elective (Graphic Design students); 300-level Studio Elective

GD358  Design Portfolio and Professional Practice  3 credits
Following an assessment of their portfolio of work from other classes, students develop and/or enhance existing work and also initiate and complete new work, as determined in consultation with instructor. The objective is a focused portfolio of work in print and digital media, at a consistent level of quality, demonstrating competence, concept and a high level of craft. Prepress, presentation and other issues are addressed within the class or in workshops in which attendance is mandatory.
Prerequisites:  Graphic Design III and Typography II. A substantial body of previously completed work is required.
Fulfills:  Graphic Design Elective (Graphic Design students); 300-level Studio Elective

GD370  Design Factory  3 credits
This course focuses on developing entrepreneurial ideas (publications, products, services) for the marketplace, and on design briefs submitted by business and non-profit clients. Under the guidance of the instructor, students incubate their own ideas, or work with clients to identify needs, develop solutions and see these through to completion. The course provides a dynamic space for the intersection of theoretical learning and practical application. Skillsets may include but are not limited to those developed in conventional graphic design courses. Students emerge with accomplished and exciting work in their portfolios. Students will have the opportunity to work with the Studio for Experiential Learning (StudioXL) and the diverse experiences this program provides.
Prerequisites:  Third-year level and above, any concentration; or Permission of Instructor
Fulfills:  Graphic Design Elective (Graphic Design Students); 300-Level Studio Elective

GD399  Topics in Graphic Design  3 credits
This course provides an in-depth study of a topic in Graphic Design. The topic may be selected to take advantage of special events, to allow further exploration of a subject covered in a preliminary way in other courses, or to explore areas not sufficiently covered by the regular class rotation.
Prerequisites:  Prerequisites will be developed in conjunction with the course description for each topic.
Fulfills:  Graphic Design Elective (Graphic Design Students); 300-Level Studio Elective
GD405  Senior Design Seminar  6 credits
Students work on self-defined, typically communication-oriented, projects over the course of one and in rare cases two semesters. They work with the instructor to clarify objectives, develop or assemble content, and design and produce a body of work that demonstrates facility with appropriate tools and techniques, high craft values, awareness of relevant contexts, and evidence of aesthetic judgment. Students meet as a group to discuss their work with peers, the course instructor and professional guests. The studio emphasis of the course is underpinned by one-on-one and group crits and discussion; panel review sessions involving other design instructors and guest critics; and a public exhibition of completed work. It may be complemented by assigned readings, seminar presentations and discussions, and writing exercises. The discussion component emphasizes contemporary design and communication practice in the print and digital realms, and in various professional and public contexts.
Course may be repeated once for credit.
Graphic Design concentrators will ordinarily have completed most if not all of their other studio requirements prior to taking Design Seminar. They have the option of taking two studio courses in lieu of a second semester of Seminar.
Concentrators in Book Arts and other areas for which Design Seminar is a capstone option are expected to declare their intention to enter Design Seminar at the time they declare their concentration. Book Arts concentrators will ordinarily have completed most if not all of their other studio requirements prior to taking Design Seminar.
Design Seminar may be taken as a studio elective by any student who applies and is accepted on the basis of her or his proposal, and evidence of a mature body of work.
Prerequisites:  See Senior Program Entrance Criteria
Fulfills:  Graphic Design Capstone Requirement (Graphic Design Students); Graphic Design Elective (Graphic Design Students); A+IM Capstone Requirement (A+IM Students); Book Arts Capstone Requirement (Book Arts Students); Interdisciplinary Capstone Requirement (Interdisciplinary Students)

GD900  Graphic Design Independent Study  3 credits
Advanced work in the student's major field of study, supervised by a designated faculty member.
Prerequisites:  Permission of Instructor
Fulfills:  Graphic Design Elective (Graphic Design Students); Studio Elective
Illustration

IL205  Animation: Pre-Production  3 credits
This course focuses on the behind-the-scenes aspects of developing animation projects, including a variety of technical and non-technical production issues. Topics include story and character development, bibles, turnarounds, character and background design, storyboarding and animatics.
Prerequisites:  Life Drawing I
Fulfills:  A+IM 200-Level Elective (Animation students), Illustration Elective (Illustration students), Studio Elective

IL213  Water-based Media  3 credits
This course is an exploration of water-based paints (acrylic, watercolor and gouache) and additives. A variety of approaches and techniques are engaged including thin watercolor and thick impasto styles. Students work in class from still-life set ups and/or models and create art for visual communication applications. Demonstrations by the instructor augment class discussions, as will examination of the works of prominent illustrators and artists working with the media at hand.
Prerequisites:  Illustration I or Permission of Instructor
Fulfills:  Illustration Elective (Illustration students), Studio Elective

IL215  Illustration I: Drawing for Communication  3 credits
Illustration I provides an introduction to the art of illustration and the skills required for its successful practice. Through a series of problems and exercises, students increase their understanding of visual language while developing their ability to use that language through drawing in the communication of ideas and information. Along with some exploration of a variety of processes and media, most of the problems are solved in finished black-and-white sketch form.
Prerequisites:  Drawing I
Fulfills:  Illustration I Requirement I (Illustration students); Studio Elective

IL225  Perspectives in Anatomy  3 credits
Perspectives in Anatomy develops students' working knowledge of the human figure through the exploration of its structure, form, and function. Students investigate the figure from simple planar and mass conceptions to more detailed studies of the skeletal and muscular systems. Through an examination of the whole and parts, students explore proportion, balance, locomotion, and the relationship between underlying structure and the surface form. Studio work includes observation and drawing from the model, slides, and illustrated lectures, visualization exercises and the construction of a 24” anatomical figure in clay.
Prerequisites:  Drawing I and Life Drawing I
Fulfills:  Perspectives in Anatomy Requirement (Illustration students); 200-level Drawing Elective; Studio Elective

IL230  Illustration II: Media and Methods  3 credits
In Illustration 2, students explore a range of approaches to creating finished art for communication problems. Projects foster media exploration, a variety of conceptual possibilities and the development of artistic solutions to illustration assignments. Color usage is a focus of the course.
Prerequisites:  Illustration I or Permission of Instructor
Fulfills:  Illustration II Requirement (Illustration students) or Studio Elective

IL240  Comics and Sequential Art  3 credits
This course is an introduction to the language of comics and the sequencing of pictures to tell stories and convey information. Specific genres explored and practiced will be the comic strip, the editorial cartoon, and the comic book and graphic novel. In addition, students will examine some of the history of comics as well as various uses of comics and sequential art in the worlds of illustration and fine arts.
Prerequisites:  Drawing I and Life Drawing I
Fulfills:  A+IM 200-Level Elective (Animation Students); Illustration Elective (Illustration students); Studio Elective
IL250  Science Fiction and Fantasy Art  3 credits
This course will introduce students to the wide world of Science Fiction and Fantasy Illustration. Projects will include book jacket illustration, working from a manuscript, working with storyboards, comics, movie posters and more. Focus will be on the process of creating characters, creatures, environments and images based on imaginative interpretation. There will be emphasis on everything from research to sketches to final execution. The course will feature presentations on both the history of the genres and their respective artists.
Prerequisites: Illustration I or Permission of Instructor
Fulfills: Illustration Elective (Illustration Students); Studio Elective

IL299  Topics in Illustration  3 credits
This course provides an in-depth study of a topic in Illustration. The topic may be selected to take advantage of special events, to allow further exploration of a subject covered in a preliminary way in other courses, or to explore areas not sufficiently covered by the regular class rotation.
Prerequisites: Prerequisites will be developed in conjunction with the course description for each topic.
Fulfills: 200-Level Illustration Elective (Illustration Students); Studio Elective

IL301  Illustration III: Process and Effect  3 credits
Working from preliminary sketches to finished art, students in this course work on assignments focused on creating a stronger visual vocabulary. Attention to dynamic staging, color concepts, conceptual and narrative implementation and refinement of media will be addressed. Students will begin to place their assignments within the context of the contemporary illustration market. Contemporary illustration work is examined and discussed.
Prerequisites: Illustration II or Permission of Instructor
Fulfills: Illustration III Requirement (Illustration students); 300-Level Studio Elective

IL305  Children's Book Illustration  3 credits
Students in this course explore aspects of children's book illustration from traditional book formats to more inventive formats. Course projects lead students through all stages of illustrating for a children's book, including the development of concepts related to the text, creating storyboards, book layout, rhythm and pace, cover art, and the completion of a book dummy.
Prerequisites: Illustration I or Permission of Instructor
Fulfills: Illustration Elective (Illustration students); 300-level Studio Elective

IL307  Illustrating Fiction  3 credits
Illustrators of fiction interpret and illuminate the visions of other artists, namely, writers. In this course, students create imagery to accompany stories, fables and myths. A variety of sub genres will be explored, possibly including classic literature, horror, mystery, romance and juvenile fiction. The application of this imagery relative to the demands of the marketplace, namely books, magazines and book covers, is surveyed. Examples of historic and contemporary fiction illustration will be examined and discussed.
Prerequisites: Illustration I or Permission of Instructor
Fulfills: Illustration Elective (Illustration students); 300-level Studio Elective

IL308  Character Creation  3 credits
In this course students explore the process of designing characters as well as the objects they possess and the environments they inhabit. Students develop characters and environments that are both personally and culturally resonant and imaginative. Particular emphasis will be placed on research as well as the expressive power of facial expression, body posture, color and costume. Through exploring students' own perceptions of good and evil, success and failure, as well as beauty and ugliness, they will aim to create characters that are highly original. Character Creation's application to diverse and emerging illustration markets such as digital game design, children's books, animation, comic books, film, merchandising and marketing will be discussed and explored.
Prerequisites: One 200-level Drawing Course, or Permission of Instructor
Fulfills: A+IM 300-Level Elective (Animation students); Illustration Elective (Illustration students); 300-level Studio Elective
IL310 Natural Science Illustration  3 credits
Rendered drawings, 3-D projects and expressive studies of animate and inanimate nature create the foundations for this specialized field. Course content prepares the illustrator through investigative research and drawing methods including optical magnification.
Prerequisites: Drawing 1, Life Drawing 1 and one 200-Level Drawing Elective
Fulfills: Advanced Drawing or Illustration Elective (Illustration students); 300-level Studio Elective

IL325 Narrative Figure Drawing  3 credits
Students work from models in costumes, settings or poses inspired by readings and oral descriptions from classic literature and contemporary contexts. Students interpret narrative meanings and refine knowledge of the figure in context while exploring different media. This course satisfies the advanced drawing elective requirement.
Prerequisites: One 200-level Drawing Course, or Permission of Instructor
Fulfills: Advanced Drawing or Illustration Elective (Illustration students); 300-level Studio Elective

IL326 Journalistic Drawing  3 credits
In this course, students will search for and report real stories from the world around them using their illustration artwork. From downtown Beverly, to nearby public places, to work environments (indoors and out) and even in their own residences, students will closely observe, render, document and comment visually on the things they investigate. The class will discuss fine and commercial art examples of visual journalism. On-site drawing will be a major focus of the course. Spatial and linear perspective, anatomy and natural science will all play roles in the successful creation of these site-specific narratives that detail place, action and story.
Prerequisites: One 200-level Drawing Course, or Permission of Instructor
Fulfills: Advanced Drawing or Illustration Elective (Illustration students); 300-level Studio Elective

IL327 Journalistic Drawing in Japan  3 credits
In this course, students will develop series of images in a journal, based directly on their experiences living and traveling in Japan. Students will closely observe, document, and comment on their investigations of various aspects of Japanese life and culture. On-site drawing will be major focus of course. Spatial and linear perspective, anatomy, natural science, and creative writing will all play roles in successful narrative.
Prerequisites: One 200-level Drawing Course, or Permission of Instructor
Fulfills: Advanced Drawing or Illustration Elective (Illustration students); 300-level Studio Elective

IL328 Editorial Illustration  3 credits
In this course, students study editorial illustration created for the communication needs of magazines, newspapers and other periodicals. Editorial Illustration emphasizes the conceptual aspects of illustration, and addresses contemporary issues in politics, criticism and culture. In this course, as in the field, the most contemporary content and styles of visual communication are explored and discussed. Attention is paid to professional standards and practices.
Prerequisites: Illustration I or Permission of Instructor
Fulfills: Illustration Elective (Illustration students); 300-Level Studio Elective

IL329 Journalistic Drawing in Italy  3 credits
In this course, students develop a series of images in a sketchbook journal, based directly on their experiences living and traveling in Italy. Students closely observe, document, and comment on their investigations of various aspects of Italian life and culture. On-site drawing is a major focus of the course.
Prerequisites: One 200-Level Drawing Course, or Permission of Instructor
Fulfills: Advanced Drawing Elective or Illustration Elective (Illustration Students); 300-Level Studio Elective
IL333  Visual Propaganda  3 credits
This course focuses on the propagation of particular ideas, doctrines or behaviors utilizing the poster as the major art form. Course content addresses essential building blocks of image making emphasizing the power of simplicity in imagery and the issue of content as the focus from conception to finish. This studio course provides the opportunity to develop personal themes within contemporary social issues. Critical input from fine art, graphic design and humanities is encouraged. Not intended exclusively for illustrators.
Prerequisites:  Art History Modern Developments and one 200-Level Drawing Elective
Fulfills:  Illustration Elective (Illustration students); 300-level Studio Elective

IL345  Illustration IV: Application  3 credits
Students In this course create works for professionally modeled assignments. Editorial, advertising, children's book, fiction, poster and sequential assignments are engaged. Attention to the marketplace, content concerns, art direction, reproduction, deadlines and other obstacles to the illustrator are addressed and experienced. Discussion and critique lead students toward a refinement of skills, exploration of concepts and the creation of artistic solutions to communication problems. In addition, students create a series of works for a chosen theme that demonstrates a deep understanding of a specific illustration genre. Contemporary illustration work is examined and discussed.
Prerequisites:  Illustration III or Permission of Instructor
Fulfills:  Illustration IV Requirement (Illustration students); 300-Level Studio Elective

IL350  Digital Illustration  3 credits
This course focuses on the creation of illustrations using digital media. Students will explore industry standard graphic application and learn to work with digital media as they would traditional art making medias, as a means, not an end, to the creative process. Emphasis will be placed on drawing, painting, design, concept and color theory. Assigned projects will ask students to create pictorial imagery using their digital explorations. Applications of digital media in the illustration marketplace and beyond will be examined and discussed.
Prerequisites:  Illustration I or Permission of Instructor
Fulfills:  A+IM 300-Level Elective (Animation students); Digital Illustration Requirement (Illustration students); 300-level Studio Elective

IL355  Cinematic Storytelling  3 credits
Animation, video games and sequential art all depend on cinematic storytelling to engage viewers in compelling narratives. In this course, students will create engaging characters and visually arresting images that involve the viewer’s sense of story. Aspects of cinematic design such as point-of-view, color schemes, value structure as well as storytelling strategies and the psychology behind narratives will be studied and put into practice.
Prerequisites:  One 200-Level Drawing Course or Permission of Instructor
Fulfills:  Advanced Drawing Elective (Illustration students); Illustration Elective (Illustration students); 300-Level A+IM Elective (Animation students); 300-Level Studio Elective

IL399  Topics in Illustration  3 credits
This course provides an in-depth study of a topic in Illustration. The topic may be selected to take advantage of special events, to allow further exploration of a subject covered in a preliminary way in other courses, or to explore areas not sufficiently covered by the regular class rotation.
Prerequisites:  Prerequisites will be developed in conjunction with the course description for each topic.
Fulfills:  300-Level Illustration Elective (Illustration Students); 300-Level Studio Elective

IL405  Senior Illustration Seminar  3 credits
In this course students will learn the groundwork for professional careers in illustration. Assigned readings, lectures and discussions will concern business standards and ethical practices. Students will create comprehensive illustration portfolios and explore promotion options such as websites and direct mail. Visiting artists will discuss their careers. Students will also complete illustration assignments intended for their portfolios.
Prerequisites:  90 credits and the completion of required courses, or Permission of the Instructor.
Fulfills:  Illustration Capstone Requirement (Illustration Students); Book Arts Capstone Requirement (Book Arts Students); Interdisciplinary Capstone Requirement (Interdisciplinary Students)
**IL410  Senior Illustration Thesis  3 credits**

In this course students complete independently generated illustration projects. Guided by an instructor, students create a comprehensive body of work which explores a specific field of illustration. Particular attention is paid to the development of professional level artwork, and a thorough understanding of the market for such images. Students work in their studios and participate in weekly group and/or individual critiques with the instructor.

- **Prerequisites:** See Seminar Program Entrance Criteria
- **Fulfills:** Illustration Elective (Illustration students); Studio Elective

**IL900  Illustration Independent Study  3 credits**

Advanced work in the student's major field of study, supervised by a designated faculty member.

- **Prerequisites:** Permission of Instructor
- **Fulfills:** Illustration Elective; Studio Elective
Interdisciplinary

CS200  Community Service  1.5 credits
CS200 provides students the opportunity to engage in community service, gain real world experience, and make personal contributions to a community organization, school or other institution with expressed need for volunteers. Students complete a minimum of 60 hours on-site. Other requirements include keeping a journal or creating artwork reflecting the experience, filling out a self-evaluation and attending a debriefing seminar with other volunteers.

A learning contract outlining objectives as well as work duties and responsibilities is completed prior to starting. Any students requesting to take CS200 where they work must develop new duties and responsibilities that are different from their work so that new learning occurs. Approval will be required from a yet-to-be-named community service coordinator.

CS200 does not take the place of INT300; however, like INT300, CS200 may be taken up to two times. Therefore, a maximum of 3 credits may be earned through community service.

Grading to be pass/fail and does not count in the GPA.
Prerequisites:  FX
Fulfills:  Studio Elective

ID101  FX  3 credits
This freshman seminar combines studio and art history methodologies to provide students with a holistic introduction to the visual arts, and to help students acclimate and transition to college level academic and studio work. This early interdisciplinary experience lays the foundation for active and critical engagement with all aspects of their artistic education. Offered in the first semester, the course features a structured and interrelated series of lectures, museum/gallery/studio visits, research, writing, and class discussions; these are complemented throughout by hands-on making, team- and individually-based projects, and critiques.

Prerequisites:  None
Fulfills:  Foundation Studio Base Requirement

ID220  Information, Images and Ideas  3 credits
A course investigating the relationship of imagery and content. Through the creation and manipulation of image collages, image and word pairings, and photographs, students investigate the construction and alteration of meaning.

Prerequisites:  None
Fulfills:  Lens, Technology and Time Elective; Studio Elective

ID230  The Landscapes, Histories and Cultures of Mallorca  3 credits
This is a two-week intensive course held on the island of Mallorca, Spain. The program gives students the opportunity to make work on location and offers unique environments in which to photograph, draw, sketch, document, collage, video or journal in the rich multifaceted landscapes and geographies of Mallorca.

Students experience a full range of cultural activities and excursions. Field trips to historic landmarks, castles and palaces, archaeological sites and ruins, museums and galleries, markets and festivals present the history and culture of the island and offer exciting opportunities to explore its diversity and beauty.

Prerequisites:  None
Fulfills:  Studio Elective

ID299  Topics in Interdisciplinary Study  3 credits
This course provides an in-depth study of an Interdisciplinary topic. The topic may be selected to take advantage of special events, to allow further exploration of a subject covered in a preliminary way in other courses, or to explore areas not sufficiently covered by regular class rotation.

Prerequisites:  Will be developed in conjunction with the course description for each topic.
Fulfills:  Will be developed in conjunction with the course description for each topic.
ID305  The Body  3 credits
This class is an investigation of the body as represented in contemporary artistic practice and theoretical writings. Beginning with looking at a variety of visual material on and about the human form, critical readings will be used to focus on concepts and questions that arise from these works of art. Class discussions and individual research will lead to both short visual and/or written responses. Students will complete a series of exercises crafting visual and/or written responses to topics such as: body modification, body image, objecthood, objectification, race, gender, identity, and the other. Students will then research a single issue and generate a larger series of work further exploring the topic. Work in this course may take a variety of research driven forms including creative, critical or philosophical writings.

Media for art making include painting, sculpture, photography, animation, video or performance. Students may elect to work in teams on projects for this course.
Prerequisites:  60 Credits
Fulfills:  A+IM 300-Level Elective (Animation students); 300-level Studio Elective; Creative Writing Elective with Permission of Instructor

ID326  Performance Studies: Actions & Interventions  3 credits
This class is a performance-related studio lab in which students explore the potential of the space-time dynamic. Basic approaches to performance art with an emphasis on visual organization, mixed media and interdisciplinary methods are addressed. Students participate in both personal and collaborative work, followed by the creation of a fully developed presentation. Field trips to view a variety of performance genres and a workshop with a guest artist are features of this course.
Prerequisites:  None.
Fulfills:  Sculpture Elective (Sculpture students); 300-level Studio Elective; Studio Elective

ID330  Obsession  3 credits
This class is an investigation of obsession in art making. Students explore issues of obsessive mark, repetition, hyper detail, laborious process as well as collecting, documenting, cataloguing and charting.
Projects will range from the singular work through book form and installation. Class format will include research, proposal, presentation and discussion. References will include the history of the Wunderkammer, outsider art and contemporary obsessive work. Issues for discussion will include the nature of obsessive work, pros and cons of obsession as a quality, and handling and research of sensitive material.
Prerequisites:  60 Credits
Fulfills:   300-level Studio Elective

ID350  Sound and Image: Producing a Sound Track  3 credits
Students gain an understanding of the basic principles of audio capture, enhancement and multi-track production by focusing on the methods used in creating a professional sound track. Examples of successful videos and animations are analyzed for the relationship of sound and image. Students compose a sound track for an existing project or their in-class production. This includes writing or generating music, gathering and recording sound effects, and mixing the final tracks.
Prerequisites:  At least one of the following courses: 3D Modeling and Animation, Animation: Traditional to Digital, Intro to Audio and Video Media, Evolving Documentary Traditions in Photography and Video or Permission of Instructor.
Fulfills:  A+IM 300-Level Elective (Animation students); 300-Level Studio Elective

ID360  Interdisciplinary Workshop  3 credits
This team taught course provides the opportunity to develop a body of work while reading and writing about contemporary visual culture and art in preparation for the capstone experience. Students in this course will meet regularly with students and faculty from the combined studio workshops to participate in discussions of professional practice, readings about contemporary issues in the art world as well as to participate in group critiques. Methods of research and outcomes include writing as a part of the studio practice.
Interdisciplinary students will be expected to work independently and to make gains in the familiarity of concepts and ideas within their work. This course is open to all concentrations.
Prerequisites:  60 Credits
Fulfills:   300-level Studio Elective
ID399  Topics in Interdisciplinary Study  3 credits
This course provides an in-depth study of an Interdisciplinary topic. The topic may be selected to take advantage of special events, to allow further exploration of a subject covered in a preliminary way in other courses, or to explore areas not sufficiently covered by regular class rotation.
Prerequisites: Will be developed in conjunction with the course description for each topic.
Fulfills: Will be developed in conjunction with the course description for each topic.

XL399  Studio XL Projects  3 credits
This course provides an experiential learning opportunity for students facilitated through StudioXL (the Studio for Experiential Learning). Each topic or project may be developed to take advantage of special events or circumstances, to allow further exploration of a subject covered in a preliminary way in other courses, or to explore areas not sufficiently covered by regular class rotation.
Prerequisites: Will be developed in conjunction with the course description for each topic.
Fulfills: Will be developed in conjunction with the course description for each topic.

**Internship**

INT300  Internship  3 credits
Required during the junior year, INT300 provides the opportunity for real world experience through the Internship & Apprenticeship Program. Students complete a minimum of 120 hours on-site as an intern with a business or as an apprentice with an established artist. Other requirements include keeping a journal, writing a reflection paper and attending a debriefing seminar with other interns and apprentices. A learning contract outlining educational objectives as well as work duties and responsibilities is completed prior to starting INT300.
Prerequisites: Junior level standing
Fulfills: Internship Requirement (All Concentrations)
Liberal Arts

EN099  Writing and Study Skills  3 credits
The goal of this course is to raise the level of students' performance in the skills necessary to succeed in classes at the college level in the liberal arts. In classes sufficiently small to permit individual attention from the teacher, students read and write essays; practice peer critiques; study grammar, vocabulary and punctuation; and practice organizational and time-use skills. This course is on a Pass/Fail basis; a Pass is necessary before students take other liberal arts courses. The three credits earned in this course do not count towards graduation requirements.

Prerequisites:  None
Fulfills:  This developmental writing course is an option for those students unsure of their ability to succeed with college-level writing. Credits earned do not go towards graduation/degree requirements.

EN100  English Composition I  3 credits
This course provides a forum for students to practice the entire writing process, from generating ideas and drafting to responding to feedback and revising. Students gain editorial skills through offering peer commentary on each others’ work. Emphasis is also placed on understanding appropriate use of grammar and mechanics. The primary course objectives are to help participants learn to think, read, and write more critically and to express themselves more articulately, especially in written form. Verbal skills learned in this class form a vital foundation for success in later courses. Students may be required to participate in lab sessions in the Writing Center and/or the English Language Program unless waived on the basis of an in class diagnostic. Students must earn a grade of C- or better to receive credit for this course. Art History and Creative Writing Minor students must earn a cumulative grade point average of 3.0 or higher in Composition I and II.

Prerequisites:  None
Fulfills:  English Composition I Requirement (grade of C- or higher required)

EN200  English Composition II  3 credits
This course reviews writing techniques developed in English Composition I and refines these skills through analyzing and responding to a range of literature. It also provides an opportunity for students to conduct research and write about a subject of their choice. The course is designed to strengthen critical reading and thinking abilities, enhance enjoyment and understanding of literature, and provide a solid introduction to academic research methods. Students may be required to participate in lab sessions in the Writing Center and/or the English Language Program unless waived on the basis of an in class diagnostic. Students must earn a grade of C- or better to receive credit for this course. Art History and Creative Writing Minor students must earn a cumulative grade point average of 3.0 or higher in Composition I and II.

Prerequisites:  English Composition I (grade of C- or higher required)
Fulfills:  English Composition II Requirement

HU200  Humanities I  3 credits
In this course students study a selection of ideas and books that have shaped world cultures. The readings include the Judeo-Greco roots of the West, but also the roots of other cultures and world views. These readings give students a perspective different from contemporary society, of another time or culture, and hence deepen their understanding of their own values and assumptions. This perspective also enriches the students' sense of common human questions and emotions expressed in different ways in different times. This course covers the time period to the Renaissance.

Prerequisites:  English Composition I and II; Art History Origins, Art History Modern Developments
Fulfills:  Humanities I Requirement

HU205  Humanities II  3 credits
This course follows the development of ideas from the Renaissance to the present, e.g., the conflicts between science and traditional faiths, the rise of democracy, the influence of Freud, Darwin, and Marx, and questions of ethnicity and identity in a global village. This course scrutinizes cultural values and looks at the interplay between these values, intellectual assumptions, and works of literature and art.

Prerequisites:  English Composition I and II; Art History Origins, Art History Modern Developments
Fulfills:  Humanities II Requirement
HU301 Introduction to Creative Writing  3 credits
Students write their own poetry, fiction, and drama, and critique each others' writing in workshops. They study the form and theory behind the genres with examples from noted writers. The course sharpens students' analytical skills, increases their appreciation of the genres, and gives them opportunities for self-expression.
Prerequisites:  English Composition I and II; Art History Origins, Art History Modern Developments
Fulfills:  Creative Writing Minor Requirement, Humanities Elective or Liberal Arts Elective

HU302 Narratives of Self: Autobiographies, Journals  3 credits
Applying aesthetic, historical, psychological, and/or cultural perspectives, this course looks at how autobiographical texts reflect different ideas of selfhood, language, authority, voice, and community. Students read and analyze autobiographical works written by others and have the opportunity to write autobiographical pieces. Readings may come from sources ranging from formal autobiographies to informal journals by authors such as Jean Jacques Rousseau, Henry Thoreau, Lorraine Hansberry, Malcolm X, Maya Angelou, Basho, Leonardo DaVinci, Sylvia Plath, James Joyce, Annie Dillard, Gertrude Stein, and Virginia Woolf.
Prerequisites:  English Composition I and II; Art History Origins, Art History Modern Developments
Fulfills:  Creative Writing Elective, Humanities Elective, or Liberal Arts Elective

HU303 Journal Writing (Viterbo, Italy)  3 credits
This course uses students' journal entries as the basis for more polished travel pieces/narratives. Offered as part of the Viterbo, Italy, summer program, students are required to keep a journal for the duration of the study abroad program. In it, they will record raw experiences and impressions of their travels. Specific journal assignments will be given during the trip, and students have a requirement to write a minimum of five pages per day while in Italy. This material will then be revised and edited into a portfolio of work upon return to the States. Types of completed portfolio assignments will include a travel narrative, a cultural review (museum/work of art), a restaurant review, and an assessment of the trip.
Prerequisites:  English Composition I and II; Art History Origins, Art History Modern Developments
Fulfills:  Creative Writing Elective, Humanities Elective, or Liberal Arts Elective

HU315 Japanese Literature in Translation (Niigata, Japan)  3 credits
From the poetry of the 10th century wanderer Basho to Ryunosuke Akutagawa’s modernist monster fable Kappa, Japan has a long history of innovative and colorful literature. In this course, to be offered during Montserrat’s Study Abroad trip to Niigata, Japan, we will explore the literature of Japan through reading, analyzing and writing. We will read a variety of poetic forms including haiku, tanka and Basho’s journey-poem, haibun and try our own hand at writing them. We will also read stories from Lady Murakami’s The Tale of Genji, considered to be the world’s first novel, and Yasunari Kawabata’s “palm of the hand stories,” what we now call “flash fiction.”
Prerequisites:  English Composition I & II
Fulfills:  Creative Writing Elective; Humanities Elective; Liberal Arts Elective

HU334 Africa Now – Contemporary African Literature  3 credits
Africa Now—Contemporary African Literature will explore poetry and prose written by contemporary writers from a variety of nations in Africa. The course is intended as an introduction to a wide range of writers, literary styles and themes in today’s African literature. Students will read, discuss, analyze and write about works of literature in the context of the many rich cultures of contemporary Africa. This course will be of interest to students interested in literature, African art and world cultures. What do you know about the people of today’s Africa? Africa is a continent of many nations, peoples and cultures. In this course, we will read poetry and short stories by a wide range of writers from the African continent. We will examine writing as both as art and as social commentary. Much of African literature is rooted in a tradition of storytelling and legends. How are today’s writers combining that tradition with current themes of government oppression, civil wars and the legacy of colonialism? How are young writers expressing their ideas about love, family relations, ambitions and dreams in traditional cultures clashing with modern ways? What does it mean to be an African writer today?
Prerequisites:  English Composition I and II; Art History Origins, Art History Modern Developments
Fulfills:  Humanities Elective or Liberal Arts Elective
HU341  The Vietnam War and Its Legacy  3 credits
The Vietnam War was a watershed episode in American history that remains controversial even in the post-9/11 world. Emerging as a complex phenomenon of the Cold War era, the Vietnam War eventually caused intense debate and conflict in the U.S. at a time when society was facing numerous challenges. To investigate some of the many questions that the war raised, this course examines the background and trajectory of the war, as well as the influence that it had in the years that followed. Among the topics covered are the "domino theory," antiwar protests, the role of the media, the Missing-in-Action and Prisoner-of-War issues, and intercultural conflict.

Prerequisites:  English Composition I and II; Art History Origins, Art History Modern Developments
Fulfills:  Humanities Elective, or Liberal Arts Elective, or Social Science; Art Education Diversity Course

HU342  Writing for Children  3 credits
This class will introduce students to writing for young readers. We will explore the story and novel formats appropriate for children aged 4-17 by reading picture books and middle grade and young adult novels. Students will write and workshop a story in each category, as well as be responsible for keeping a review journal of outside readings. As a class, we will discuss the creative writing process and focus on point of view, character development, plot, setting and theme, as they relate to children's writing.

Prerequisites:  English Composition I and II; Art History Origins, Art History Modern Developments
Fulfills:  Creative Writing Minor Elective, Humanities Elective or Liberal Arts Elective

HU345  World History Since 1900  3 credits
This course considers the themes of continuities and change since the beginning of the twentieth century. The major events that shaped the world during that time are examined from a global perspective. Among the topics discussed are: changes in demography and in world economies; the causes and ramifications of the two World Wars; the rise and fall of the Soviet Union; the Cold War; decolonization; and globalization.

Prerequisites:  English Composition I and II; Art History Origins, Art History Modern Developments
Fulfills:  Humanities Elective; Liberal Arts Elective

HU353  History of Animation  3 credits
Animation has been an important part of screen history since the earliest days of film in the late 19th century. Locating animation within film history and evolving socio-political historical contexts, this course explores the development of animation styles, aesthetics, modes of production, and viewership to consider how animated works have fulfilled entertainment, educational, artistic, commercial, and propagandistic purposes. Major national and international figures and studios are covered, as are major visual and narrative styles, from the earliest hand-drawn to CGI animated works.

Prerequisites:  English Composition I and II; Art History Origins, Art History Modern Developments
Fulfills:  Art History Elective, or Liberal Arts Elective, or Humanities Elective

HU354  History of Film  3 credits
This course introduces the medium of the film (cinema) as a mode of communication and as an art form. Recognizing the complexity of the medium, the course will use an interdisciplinary approach. Among the topics considered in relation to the study of film are communications theory, aesthetics, psychology, business, politics, and national experience. The course is international in scope and covers such historical movements as Expressionism, the Film Noire, New Wave, and other important genres.

Prerequisites:  English Composition I and II; Art History Origins, Art History Modern Developments
Fulfills:  Art History Elective, or Liberal Arts Elective, or Humanities Elective
HU361 Gender and Literature 3 credits
This course will explore gender issues in literature throughout history and across cultural lines. Different writers' portrayal of the spectrum of sexual roles will be studied. Some questions touched on will be the effects of society and physiology on gender, the effects of stereotyping, how gender issues affect individual men and women and society as a whole, how gender roles vary in different cultures, and current controversies concerning literary portrayal of sexual roles.
Prerequisites: English Composition I and II; Art History Origins, Art History Modern Developments
Fulfills: Humanities Elective, Liberal Arts Elective or Art Education Diversity Elective

HU362 Literary Drama 3 credits
In this course students read plays and write analytical papers. They also study the plays from the inside, by learning the parts and acting them. Plays studied may range from Sophocles, Aristophanes, and Shakespeare, to Ionesco and Beckett. This class touches briefly on the intersection between drama and theater, for example the sets of Picasso for the plays of Cocteau. Some brief public performances may be arranged.
Prerequisites: English Composition I and II; Art History Origins, Art History Modern Developments
Fulfills: Humanities Elective or Liberal Arts Elective

HU365 Aspects of Modern Fiction 3 credits
In this course students read modern novels and short stories (i.e., fiction from the 20th and 21st century). They analyze these works with reference to the forms and techniques of fiction and the meaning of structural decisions and values of society.
Prerequisites: English Composition I and II; Art History Origins, Art History Modern Developments
Fulfills: Creative Writing Elective; Humanities Elective or Liberal Arts Elective

HU366 Narrative Forms 3 credits
Catalog Description: This course is an exploration of four narrative forms: Personal Narratives; Flash Fiction and Hybrids; the Lyric Essay; and Narrative Non-Fiction. We will examine examples of these narrative forms and use them as models for learning how the form works. We will work on craft and technique, as well as creative use of the various forms. Class time will mainly be spent on peer critiques and writing exercises with discussion of the forms themselves. There will be opportunities to perform finished work for the class and for the Montserrat Community.
Prerequisites: English Composition I and II; Art History Origins, Art History Modern Developments
Fulfills: Creative Writing Elective; Humanities Elective or Liberal Arts Elective

HU372 Fiction Writing 3 credits
This course is for students who have already taken Introduction to Creative Writing and wish to pursue their interest in fiction writing. In it students write their own short stories and critique each others' work in workshops. They also read selections of modern fiction writers and write papers in which they analyze the fiction in light of their own writings.
Prerequisites: Introduction to Creative Writing
Fulfills: Creative Writing Elective; Humanities Elective; Liberal Arts Elective

HU374 Writing Poetry 3 credits
This course is for students who have already taken Introduction to Creative Writing and wish to pursue their interest in writing poetry. In it students write their own poetry and critique each others' work in workshops. They also read selections of modern poets and write analyses of these readings in light of their own writings.
Prerequisites: Introduction to Creative Writing
Fulfills: Creative Writing Elective; Humanities Elective; Liberal Arts Elective

HU380 Aesthetics and Criticism 3 credits
An introduction to the study of aesthetics that includes a study of the major historic approaches to philosophic questions of value and quality in art and the consideration of problems in establishing standards of criticism in art.
Prerequisites: English Composition I and II; Art History Origins, Art History Modern Developments
Fulfills: Humanities Elective or Liberal Arts Elective
HU381  Advanced Creative Writing Workshop  3 credits
In this course students may work in various genres of creative writing, such as short stories, poetry, or film-writing. By mid-semester each student should propose an independent project for a portfolio to be completed by the end of the course. Appropriate readings in the genre will also be assigned. Though students may work in separate genres, they will still workshop each others’ writing. The class will emphasize individual attention from the instructor.
Prerequisites:  Introduction to Creative Writing or Permission of Instructor
Fulfills:  Creative Writing Elective; Humanities Elective; Liberal Arts Elective

HU390  Eastern Philosophies  3 credits
This course serves as a basic introduction to the philosophies of Asian countries such as India, China, and Japan. Through comparisons between Eastern and Western conceptions of certain fundamental questions of the human conditions, such as the nature of the universe and the nature of man, students will examine their own ways of thought as well as those of other cultures.
Prerequisites:  English Composition I and II; Art History Origins, Art History Modern Developments
Fulfills:  Humanities Elective or Liberal Arts Elective; Art Education Diversity Course

HU399  Topics in Humanities  3 credits
This course provides an in-depth study of a time period or topic in Humanities. The topic may be selected to take advantage of special events, to allow further exploration of a subject covered in a preliminary way in other courses, or to explore areas not sufficiently covered by the regular class rotation.
Prerequisites:  English Composition I and II; Art History Origins, Art History Modern Developments
Fulfills:  Humanities Elective or Liberal Arts Elective

SI205  Concepts in Science  3 credits
This course introduces students to selected concepts, issues, and methods in science. The non-specialist student explores areas of scientific inquiry that have a significant effect on cultural, intellectual, and environmental issues. Some work with mathematics is included.
Prerequisites:  English Composition I and II; Art History Origins, Art History Modern Developments
Fulfills:  Science Requirement or Liberal Arts Elective

SI216  Environmental Issues: Global and Local  3 credits
This course examines planetary environmental changes and trends and their effect on humanity. An emphasis is placed on the historical background of current conditions, such as long-term cycles like glaciation, as well as the more recent emergence of humanity as a species capable of modifying the planet's environment. Specific local issues of pollution and environmental control are also explored.
Prerequisites:  English Composition I and II; Art History Origins, Art History Modern Developments
Fulfills:  Science Requirement or Liberal Arts Elective

SI399  Topics in Science  3 credits
This course provides an in-depth study of a time period or topic in Science. The topic may be selected to take advantage of special events, to allow further exploration of a subject covered in a preliminary way in other courses, or to explore areas not sufficiently covered by the regular class rotation.
Prerequisites:  English Composition I and II; Art History Origins, Art History Modern Developments
Fulfills:  Science Requirement or Liberal Arts Elective

SO200  Self and Society  3 credits
This course introduces issues and concepts in the study of human behavior. Using approaches from sociology, psychology, political science, and history, it explores both individual and group behavior and covers such areas as self-identity, cultural, social, and political institutions, and social organization. The course also includes discussion of ethnic and gender issues within the context of an evolving world.
Prerequisites:  English Composition I and II; Art History Origins, Art History Modern Developments
Fulfills:  Social Science Core Requirement Elective, Social Science Elective or Liberal Arts Elective
**SO305  Contemporary Social Problems  3 credits**
An analysis of the origin and development of selected social problems and their impact on society. Topics may include poverty, crime, racism, violence, substance abuse, and sexually-transmitted diseases.
Prerequisites: English Composition I and II; Art History Origins, Art History Modern Developments
Fulfills: Social Science Core Requirement Elective, Social Science Elective or Liberal Arts Elective; Art Education Diversity Requirement

**SO310  Diversity in the US  3 credits**
The peoples of the United States are characterized by rich diversity. In this course, students explore this diversity by focusing on such topics as race, ethnicity, gender, and sexual preference. The social and political dimensions of diversity in the US are examined in order to broaden the student's knowledge and appreciation of the variety of human experience in the US.
Prerequisites: English Composition I and II; Art History Origins, Art History Modern Developments
Fulfills: Social Science Elective or Liberal Arts Elective; Art Education Diversity Requirement

**SO311  Politics and the Media  3 credits**
Modern political life is largely played out in the media. This course examines how electronic and print media influence public opinion and shape the ways in which political issues are perceived. Also considered are the ways that political actors seek to influence how issues are portrayed in the media. The course considers such topics as: objectivity and the news media; political advertising; “talk radio”, and how films and television can influence ideas about political issues.
Prerequisites: English Composition I and II; Art History Origins, Art History Modern Developments
Fulfills: Social Science Elective or Liberal Arts Elective

**SO330  Fear  3 credits**
This course will examine the basic human emotion of fear. We will explore in brief the psychology of fear; why do humans have fears and what do they tell us about ourselves? Are these fears a result of the evolutionary process? We will then proceed to how these fears are manifested in cultures resulting in superstitious beliefs. We will also look at how these fears have produced folk tales and works of fiction. Some of the topics will include witchcraft, vampires, ghosts, zombies, plagues, and death. We will look at how images of horror have changed over time in culture. Research papers, discussions, and response papers will be required.
Prerequisites: English Composition I and II; Art History Origins, Art History Modern Developments
Fulfills: Social Science Elective or Liberal Arts Elective

**SO350  Cultural Anthropology  3 credits**
By examining other cultures, we are challenged to think critically about the culture in which we live and the often unexamined beliefs and practices that are part of our everyday experience. In this course, we investigate a variety of cultures (including non-Western), and explore anthropological approaches to understand human society, with emphasis on social and cultural systems of meaning. In the course of our studies, we may consider such topics as symbolic communication; the concept of culture; systems of kinship; gender roles; belief systems; power and authority; and social change.
Prerequisites: English Composition I and II; Art History Origins, Art History Modern Developments
Fulfills: Social Science Core Requirement Elective, Social Science Elective or Liberal Arts Elective; Art Education Diversity Course

**SO365  Psychology of Art and Creativity  3 credits**
A study of the theory of creativity, the creative process, and factors that aid or hinder creativity, as well as the psychology of motivation, perception, expression, and color. Principles studied are applied to the visual arts.
Prerequisites: English Composition I and II; Art History Origins, Art History Modern Developments
Fulfills: Social Science Elective or Liberal Arts Elective; Art Education Psychology Course
SO370  Developmental Psychology  3 credits
An examination of the physical, emotional, cognitive, and behavioral growth of human beings. Topics covered include the nature-nurture question, the issue of stages or continuous growth, anthropological perspectives, and educational implications of childhood development. While the major emphasis will be on general development, the course will also focus on the development of drawing, picture perception, and the aesthetic sense.
Prerequisites:  English Composition I and II; Art History Origins, Art History Modern Developments
Fulfills:  Social Science Elective or Liberal Arts Elective; Art Education Psychology Course

SO399  Topics in Social Science  3 credits
This course provides an in-depth study of a time period or topic in social science. The topic may be selected to take advantage of special events, to allow further exploration of a subject covered in a preliminary way in other courses, or to explore areas not sufficiently covered by the regular class rotation.
Prerequisites:  English Composition I and II; Art History Origins, Art History Modern Developments
Fulfills:  Social Science Elective or Liberal Arts Elective
Painting and Drawing

DR200  Drawing II  3 credits
This course emphasizes the functions of drawing, including definition, exploration, ritual, and process. Within these functions are more specific issues of perspective space, non-objective space, scale, color, line, contrast, sequence, imagination, and memory. The goal is to develop confidence and consolidate skills into an approach to drawing that has broad applications.
Prerequisites:  Drawing I
Fulfills:  200-level Drawing Elective; Studio Elective

DR204  Life Drawing I  3 credits
Studying the human figure is an effective way to engage with and understand visual dynamic. Through involvement with gesture, structure, proportion, anatomy, the effects of light in relation to form and composition, students explore both formal and expressive issues as they work from the model. Slides and other sources of historic and contemporary figurative art are presented throughout the semester.
Prerequisites:  Life Drawing 1 Requirement (A+IM, Illustration, Painting and Sculpture Students); Art Education Recommendation
Fulfills:  Life Drawing I Requirement (Illustration students); 200-level Drawing Elective; Studio Elective

DR205  Life Drawing II  3 credits
A continuation in the study of the human form, with an emphasis on an interpretive and expressive approach to the figure.
Prerequisites:  Life Drawing I
Fulfills:  Life Drawing II Requirement (Illustration students); 200-level Drawing Elective; Studio Elective

DR216  Figure Drawing and Painting (Viterbo)  3 credits
This course is devoted to exploring strategies for depicting the figure. These include a wide range of "gesture drawing" approaches, analytical strategies, value and color studies, and composition techniques. Students are encouraged to use a wide range of materials.
Prerequisites:  Drawing I, Life Drawing I, or permission of the instructor
Fulfills:  200-level Drawing Elective; Studio Elective

DR225  Perspectives in Anatomy  3 credits
Perspectives in Anatomy develops students' working knowledge of the human figure through the exploration of its structure, form, and function. Students investigate the figure from simple planar and mass conceptions to more detailed studies of the skeletal and muscular systems. Through an examination of the whole and parts, students explore proportion, balance, locomotion, and the relationship between underlying structure and the surface form. Studio work includes observation and drawing from the model, slides, and illustrated lectures, visualization exercises and the construction of a 24" anatomical figure in clay.
Prerequisites:  Drawing I, Life Drawing I
Fulfills:  Perspectives in Anatomy Requirement (Illustration students); 200-level Drawing Elective; Studio Elective

DR299  Topics in Drawing  3 credits
This course provides an in-depth study of a topic in Drawing. The topic may be selected to take advantage of special events, to allow further exploration of a subject covered in a preliminary way in other courses, or to explore areas not sufficiently covered by the regular class rotation.
Prerequisites:  Prerequisites will be developed in conjunction with the course description for each topic.
Fulfills:  200-Level Drawing Elective; Studio Elective
DR300  **Advanced Figure Drawing**  3 credits
Using the figure as the major element, students work in a variety of media, size, and scale. Various themes are explored, such as figures in landscape, figures in conflict, figure groups, and figure distortion. Students communicate a personal point of view through their drawings according to their own experience and vision. Contemporary and historical references help students examine the use of narrative or symbolic figuration.
Prerequisites:  Life Drawing II
Fulfills:  Advanced Drawing Elective; 300-level Studio Elective; Studio Elective

DR305  **Advanced Abstract Drawing**  3 credits
An investigation of several approaches to abstract drawing that derive from contemporary and early abstract artists. Students work in a variety of media and on both large and small works. Tension, shape, frontality, marks, geometry, and space are some of the issues that are addressed.
Prerequisites:  one 200-level Drawing Course
Fulfills:  Advanced Drawing Elective; 300-level Studio Elective; Studio Elective

DR310  **Advanced Objective Drawing**  3 credits
This course is an opportunity to explore the realms of contemporary objective drawing. Students are asked to infuse drawings with a personal point of view, searching for a sense of originality through use of specific perceptual subjects that may include objects, animals, landscape forms, plants, figures, and maps. The work of contemporary artists who use objective images in unusual ways is discussed. This course requires considerable online image research.
Prerequisites:  one 200-level drawing course
Fulfills:  Advanced Drawing Elective; 300-level Studio Elective; Studio Elective

DR311  **The Artist "Notebook"**  3 credits
Throughout history artist's notebooks have played an important role in the development of visual imagery. They have allowed us, as viewers, to better understand artists’ processes, thoughts and imagination. Notebooks have provided artists another “place” for exploration and self-reflection. What is an artist notebook? What form can it take? What creative role can it play? Through the use of notebooks students will explore these questions, developing their chosen methods and materials.
Prerequisites:  one 200-level drawing course
Fulfills:  Advanced Drawing Elective; 300-level Studio Elective; Studio Elective

DR315  **Advanced Drawing Workshop**  3 credits
Assigned and student-initiated projects encourage the development of a series of related works. Initiating and sustaining ideas, the expressive possibilities of black-and-white and color media, and the formal integrity of a drawing are some of the issues explored. Frequent lectures, critiques, and field trips.
Prerequisites:  one 200-level drawing course
Fulfills:  Advanced Drawing Elective; 300-level Studio Elective; Studio Elective

DR316  **Drawing III: Nature and Abstraction**  3 credits
This course introduces the historical and contemporary use of nature as a source for abstraction. Students develop drawing ideas based on observation and interpretation of natural phenomena. Through a series of specific subject units (the human body, macro/micro worlds, geological and botanical subjects, landscape forms and weather) students learn to integrate abstract forms and content in drawing. Issues of scale, form, space, surface tension and mark making will be stressed.
Prerequisites:  one 200-level drawing course
Fulfills:  Advanced Drawing Elective; 300-level Studio Elective; Studio Elective
DR320 Plasticity and Space  3 credits
This course assumes that all drawings, abstract or representational, idea-based or expressionistic, must deal in some way with the organization of space. Students explore the use of formal structural elements in painting from Giotto to the present day. Working from still-life motifs and from the model, students discover how spatial relationships seen in nature can be expressed in drawing through the use of shifting, interacting planes, opposing movements of spatial forces, and the creation of large volumes which contain and lend coherence to smaller forms.
Prerequisites:  one 200-level drawing course
Fulfills:  Advanced Drawing Elective; 300-level Studio Elective; Studio Elective

DR399 Topics in Drawing  3 credits
This course provides an in-depth study of a topic in Drawing. The topic may be selected to take advantage of special events, to allow further exploration of a subject covered in a preliminary way in other courses, or to explore areas not sufficiently covered by the regular class rotation.
Prerequisites:  Prerequisites will be developed in conjunction with the course description for each topic.
Fulfills:  Advanced Drawing Elective; 300-Level Studio Elective

PN205 Painting II: Nature and Abstraction  3 credits
This course introduces the historical and contemporary use of nature as a source for abstraction. Students will develop painting ideas based on observation and interpretation of natural phenomena. Issues of scale, color, form, space, surface tension, and paint quality will be stressed.
Prerequisites:  Painting, Color and Light
Fulfills:  200-level Painting Elective; Studio Elective

PN213 Painting II: Figure Painting  3 credits
Working from observation of clothed and life models, students create paintings of figures that explore a range of expressive options. Formal and material issues of painting are emphasized in tandem with a focus on composition and content. Students investigate gesture and human expression through in-class and homework assignments. A wide variety of traditional and contemporary figurative work is introduced to discuss related issues for each painting project.
Prerequisites:  Painting, Color and Light and Life Drawing I
Fulfills:  200-level Painting Elective; Studio Elective

PN215 Painting II: Mixed Media  3 credits
A variety of new materials is used in contemporary painting. Students create personal aesthetic statements through the inherent nature of alternative materials, including mark-making in acrylic and oil; wall constructions and assemblage; and other alternative materials. At the end of the semester, students develop a coherent series of independent works in mixed media.
Prerequisites:  Painting, Color and Light, and one 200-level Drawing Elective
Fulfills:  200-level Painting Elective; Studio Elective

PN220 Painting II: Abstract Painting and the Figure  3 credits
This course explores the relationship between figuration and abstraction. Students work with the conceptual contributions of such twentieth-century modernists as Matisse, Picasso, DeKooning, Johns, and the New Image Painters. Subject matter is discovered through imagination and contact with real and photographed objects, figures, and space. Traditional and nontraditional painting materials are employed.
Prerequisites:  Painting, Color and Light
Fulfills:  200-level Painting Elective; Studio Elective

PN225 Painting II: Color Issues  3 credits
A course expanding further on color issues in painting. Some of these are luminosity, iridescence, color assimilation, space, color as form, color as content, and color palettes of historic and contemporary painters. Although past and present views on the use of color in art are investigated, emphasis is placed on the student's personal interpretation and the use of color principles.
Prerequisites:  Painting, Color and Light
Fulfills:  200-level Painting Elective; Studio Elective
PN230 Painting II: Landscape  3 credits
This course explores the broad range of landscape and cityscape painting. Elements of color, structure, viewpoint, and paint handling common to both contemporary and historical landscape painting will be stressed. Both outdoor and studio methods will be introduced, with special emphasis on personal interpretation.
Prerequisites: Painting, Color and Light
Fulfills: 200-level Painting Elective; Studio Elective

PN235 Painting II: Nonobjective Painting  3 credits
This course addresses the potential of painting as pure abstraction independent from representation. Students extend their understanding of artistic intention, design, and materials through the exploration of a variety of media and strategies. Students are challenged to explore form, line, color and scale as elements of a powerful and unlimited visual language. Among the artists who will be discussed are Malevich, Kandinsky, Mondrian, Delaunay, Pollock, Louis, Martin, Riley, Marden, and Kusama.
Prerequisites: Painting, Color and Light
Fulfills: 200-level Painting Elective; Studio Elective

PN240 Landscape Painting in Italy (Viterbo)  3 credits
This course explores a wide range of approaches to landscape painting, focusing primarily on the unique environment of the medieval city of Viterbo, surrounding countryside and gardens. Students study composition, color, light and space, and are encouraged to work with a variety of media. Both outdoor and studio methods will be introduced with special emphasis on personal objectives.
Prerequisites: Painting, Color and Light or permission of instructor
Fulfills: 200-level Painting Elective; Studio Elective

PN245 Painting II: Contemporary Painting Practice  3 credits
This course is a survey of contemporary painting practice that introduces a student to a variety of methods, mediums and materials. The topics may include the construction and presentation of painting supports and grounds, the specific properties of pigments and mediums, and the unique advantages of acrylics, oils. This course cites modern and contemporary painters, both figurative and abstract. Throughout the semester, students explore the various methods and materials enabling them to better access the expressive powers of painting.
Prerequisites: Painting, Color and Light
Fulfills: Methods and Materials Requirement Elective (Illustration and Painting students); 200-Level Painting Elective (Painting Students); Studio Elective; Prerequisite for all 300-level Painting Classes

PN250 Painting II: Collage Projects  3 credits
This course is designed to investigate the intersection of technology, traditional collage and mixed media approaches. Researching historical and contemporary practice, students develop a series of work using photo compositing techniques, traditional collage and mixed media approaches. In addition to using computer imaging programs, students explore collage using a variety of materials, including paper, scanned images and element, paint cloth and objects. Working in turn from objective sources and imagination, or by setting up formal and expressive objective to be 'solved', students research and develop their work in a series format. There is an emphasis on the formal and expressive issue related to each collage, and to resolving relationships and structure key to each work.
Prerequisites: Painting, Color and Light
Fulfills: 200-Level Painting Elective; Studio Elective

PN255 Painting II: Objective Painting  3 credits
The purpose of this course is to acquaint the student with the techniques of the great European masters and their relevance to creating work in the present era. Using oils, the students make their own painting panels and learn to use under-painting, glazing, scumbling, etc. They study the methods of such painters as Van Eyck, Titian, Caravaggio, Artemisia Gentileschi, Mary Cassatt, and Degas and the rediscovery of these methods in the twentieth century by artists such as Balthus, Alfred Leslie, and Philip Pearlstein.
Prerequisites: Painting, Color and Light
Fulfills: Methods and Materials Requirement Elective (Illustration and Painting students); 200-level Painting Elective and Studio Elective
PN299  Topics in Painting  3 credits
This course provides an in-depth study of a topic in Painting. The topic may be selected to take advantage of special
events, to allow further exploration of a subject covered in a preliminary way in other courses, or to explore areas not
sufficiently covered by the regular class rotation.
Prerequisites:  Prerequisites will be developed in conjunction with the course description for each topic.
Fulfills:  200-Level Painting Elective (Painting Students); Studio Elective

PN305  Painting III: Painting and the Photograph  3 credits
This course explores ways that photography has profoundly affected painting. Projects in such areas as photographic
note-taking, appropriation, media manipulation, and collage emphasize the use of photographic processes to create
an expanded definition of painting.
Prerequisites:  Methods and Materials Requirement
Fulfills:  300-Level Painting Elective (Painting Students); 300-Level Studio Elective

PN316  Painting III: Alternative Materials  3 credits
In this continuation of Painting II: Mixed Media, students explore a variety of alternative grounds and supports,
including shaped canvases, assemblage, and industrial materials. Through a sequence of assignments, students
create independent works incorporating a range of alternative materials that relate to a particular theme or reflect a
personal direction. Contemporary artists who employ nontraditional materials and mixed media are discussed.
Prerequisites:  Methods and Materials Requirement and Painting II: Mixed Media or Permission of Instructor
Fulfills:  300-Level Painting Elective (Painting Students); 300-Level Studio Elective

PN320  Painting III: Abstract Painting  3 credits
This course examines formal, psychological and spiritual concerns of abstract painting that originate from the work of
modern and contemporary abstractionists. The focus of this course is on finding and organizing sources for abstract
imagery.
Prerequisites:  Methods and Materials Requirement
Fulfills:  300-Level Painting Elective (Painting Students); 300-Level Studio Elective

PN330  Painting III: Myth, Metaphor, and Symbol  3 credits
This course explores historical and contemporary visual approaches to mythology, metaphor, and symbol. Sources
may include the Bible, Greek and Roman myths, symbolism, and psychoanalysis. Twentieth-century artists such as
Picasso, Klee, Warhol, and Beuys provide a framework for painting projects that stress the personal integration of
idea, image, and paint.
Prerequisites:  Methods and Materials Requirement
Fulfills:  300-Level Painting Elective (Painting Students); 300-Level Studio Elective

PN335  Painting III: Workshop  3 credits
This course is structured to allow students the opportunity to develop a group of related works. A wide range of
figurative and abstract approaches is encouraged. Slide presentations, discussions, and critiques provide a basis for
critical judgment. This course is recommended for all third year painting students.
Prerequisites:  Methods and Materials Requirement
Fulfills:  300-Level Painting Elective (Painting Students); 300-Level Studio Elective

PN338  Painting as Object  3 credits
This course investigates contemporary drawing and painting and its intersection with sculpture, exploring and
stretching traditional boundaries. Students will create paintings that exist both as image and as object. Artists who
navigate the territory of 2D and 3D will be introduced and students will respond in the making of their own work and in
critiques. Students will look at "objectness" and consider relationships between art work and the wall, the floor and
the ceiling. Opening up the drawing and painting process beyond paper and canvas allows students to consider
alternative approaches to utilizing materials, surfaces, tools, techniques and relationships to space. This course
provides opportunities for students to reflect upon the myriad of possibilities inherent in contemporary art-making.
Prerequisites:  Methods and Materials Requirement
Fulfills:  300-Level Painting Elective (Painting Students); 300-Level Studio Elective
PN345  Painting III: Visual Systems  3 credits
This course is an overview of visual systems used by artists, both past and present, to organize a two-dimensional surface. Student projects examine traditional and non-traditional methods such as flat and deep space, scale, color, and contemporary mathematical and language systems. Comprehension and practice in the fundamentals of visual organization increase the student's ability to make effective expressive statements.
Prerequisites:  Methods and Materials Requirement
Fulfills:  300-Level Painting Elective (Painting Students); 300-Level Studio Elective

PN350  Painting IV: Visiting Artist  3 credits
This course, conceived and taught by a visiting painter, prepares the student for the senior program of self-directed study. Within a course format that focuses on assigned projects, discussions, and critiques, each student is expected to produce a body of related works.
Prerequisites:  Methods and Materials Requirement
Fulfills:  300-Level Painting Elective (Painting Students); 300-Level Studio Elective

PN355  Painting III: Advanced Color Workshop  3 credits
Students explore and apply issues and concepts relating to the use of color as a driving force in the making of art in this advanced multi-media workshop. The course will focus on the integration of color, form, and content, and the uses of color in formal and emotive content. Emphasis will be placed on helping the student develop a cohesive body of work to present for admission to Senior Seminar.
Prerequisites:  Methods and Materials Requirement
Fulfills:  300-Level Painting Elective (Painting Students); 300-Level Studio Elective

PN365  Painting III: Life Painting Workshop  3 credits
Various means of painting the human form are studied, using under- and over-painting, alla prima, impasto, glazing, etc. Composition, mood, color, and scale are stressed. Each student is expected to produce a body of independent related work.
Prerequisites:  Life Drawing II; Methods and Materials Requirement
Fulfills:  300-Level Painting Elective (Painting Students); 300-Level Studio Elective

PN399  Topics in Painting  3 credits
This course provides an in-depth study of a topic in Painting. The topic may be selected to take advantage of special events, to allow further exploration of a subject covered in a preliminary way in other courses, or to explore areas not sufficiently covered by the regular class rotation.
Prerequisites:  Prerequisites will be developed in conjunction with the course description for each topic.
Fulfills:  300-Level Painting Elective (Painting Students); 300-Level Studio Elective

PN900  Independent Study in Painting  3 credits
Advanced work in the student's major field of study, supervised by a designated faculty member.
Prerequisites:  Only open to third and fourth year students with permission of the instructor.
Fulfills:
Photography and Video

**PH204 Photographic Media I** 3 credits

This class is an introduction to the tools, materials and aesthetics of photographic imaging. Students explore the basic principles of photography while they complete a series of assignments geared towards developing their technical and conceptual abilities. Issues related to camera vision, representation and picture interpretation are studied. Historical and contemporary image making is examined and analyzed through readings and class discussions. Students will engage analog, digital still and time-based visual imaging options. Class critiques follow the completion of each assignment as well as the final class project.

Prerequisites: None
Fulfills: Lens, Technology and Time Elective; Photographic Media I Requirement (Photography and Graphic Design students); Studio Elective

**PH215 Landscape Photography in Italy (Viterbo)** 3 credits

This course is administered by the Director of the Italy Program and makes use of the environment and locale of the residency program in Italy. The structure of different types of photographic work, and the requirements and problems associated with each, will be used as tools to focus one's photographic perception of the residency experience. Assignments are designed to narrow the student's image choices, and produce images which go beyond generalization or literal representations. Weekly assignments will include editorial photography, visual narratives, and approaches to landscape/environment. Emphasis will be on producing images within each assignment that translate the experience of the photographer. Readings and slide lectures will introduce the concepts and potentials of each project.

There will be weekly assignments and a final critique will occur in October, where all students will show their final portfolio.

Prerequisites: Photographic Media I
Fulfills: Photography Elective (Photography students); Studio Elective

**PH225 3-D Computer Graphics** 3 credits

This course is designed for the fine artist, illustrator, or designer who is interested in exploring 3-D computer modeling and rendering as a visualization tool for sculpture and 2-D image making. Students become literate in the conceptual and technical skills necessary to work within a 3-D computer environment while completing projects which are applicable to different areas of concentration. Students learn to build polygonal objects using 2-D to 3-D transformation techniques; apply and manipulate surface attributes; design and build 3-D environments; and create hybrid imagery using a variety of software tools and output options including print, video tape, and the web. This course covers a brief history of 3-D computer modeling, as well as discussions regarding contemporary issues surrounding animation and virtual reality, an introduction to key frame animation, and the work of artists working in the medium.

Prerequisites: None
Fulfills: Photography Elective (Photography students); Studio Elective

**PH230 Photographic Media II** 3 credits

Students continue their inquiry into analog and digital photographic imaging processes. The class covers issues of representation, image context and meaning, structural variations, picture relationships, series and sequence, scale and output options. Image capture and output technologies are utilized as a means for creating, manipulating and editing content. Alternative presentation considerations are also examined. Students will fulfill assignments and present their work for critique.

Prerequisites: Photographic Media I
Fulfills: Photographic Media II Requirement (Photography students); Studio Elective
PH235  Experimental Film  3 credits
This course is an introduction to Super-8 and 16mm film making through hands-on experience with the photochemical process. The course covers the skills required to produce non-sync films (that do not have sound recorded at the same time) from concept through completion. The course covers: basic photographic skills, working with Super-8 and 16mm film cameras, choosing film stocks, film developing, and project planning. This class also covers lighting, working with a film laboratory, analyzing footage, film logging and editing, digital conversion and non-linear editing. Students will plan, shoot, develop and edit short non-sync films outside of class for in-class viewing and critique.
Prerequisites: Photographic Media I or Permission of Instructor
Fulfills: Time-based Media Elective (Photography Students); Photography Elective (Photography students); Studio Elective

PH240  Audio and Video Media I  3 credits
This course examines contemporary theories of audio and video media production. Students explore the fundamental technologies of capturing and recording audio and video content, and investigate the structural components and creative elements of editing, manipulation, effects, and time. Assignments examine the relationship between art and media, covering topics that could include advertising, documentaries, the news, political campaigns, and personal identity. Various theories, concepts and methods of critical viewing are examined through a series of readings, class discussions and the screening of various artists’ works. Students will complete multiple assignments and present them for critique.
Prerequisites: None
Fulfills: Lens, Technology and Time Elective; A+IM Requirement (Animation Students); Time Based Media Elective (Photography students); Photography Elective (Photography students); Studio Elective

PH250  Audio and Video Media II  3 credits
This class concentrates on the production and viewing of video work. Students work on individual and group projects throughout the semester. Emphasis is placed on exploration of the elements of time, sound, narrative and non-narrative structure within a context of personal experience and the traditions of video art.
Prerequisites: Audio and Video Media I
Fulfills: A+IM 200-Level Elective (Animation Students); Time-Based Media Elective (Photography students); Photography Elective (Photography students); Studio Elective

PH252  Digital Media I  3 credits
This course will acquaint students with the technical as well as creative possibilities of digital media. Contemporary as well as historic use of image manipulation, correction, enhancement and alteration will be covered through a series of sequential lectures, demos and assignments. The evolving construction of the camera itself, changing software options and current printing technologies will be explored with special attention to their impact on the visual working environment. Students will write a proposal for a personal project with special emphasis on the relationship of content and technology within their chosen topic.
Prerequisites: Photographic Media I
Fulfills: Digital Photography Requirement (Photography students); Studio Elective

PH260  Documentary I  3 credits
This course introduces students to documentary practices while emphasizing a cross-disciplinary and multi-media approach. This course examines documentaries as a means to represent facts, issues and events. A variety of contemporary forms of documentary media production and modes of visual representation are discussed, analyzed and employed. Assignments are designed to introduce the tools, technologies and core concepts of making documentaries which includes story research, form and structure, interviewing techniques, location and field work, story development, editing and presentation. The role, rights and responsibilities of the documentary producer are also covered. Critical viewing of various documentary works and genres provides historical and contemporary perspectives. Students present their projects in class and are critically evaluated by their peers and instructor.
Prerequisites: Photographic Media I or Audio and Video Media I or Permission of Instructor
Fulfills: A+IM 200-Level Elective (Animation students); Time-Based Media Elective (Photography students); Photography Elective (Photography students); Studio Elective
PH299  Topics in Photography and Video  3 credits
This course provides an in-depth study of a topic in Photography and Video. The topic may be selected to take advantage of special events, to allow further exploration of a subject covered in a preliminary way in other courses, or to explore areas not sufficiently covered by the regular class rotation.
Prerequisites:  Prerequisites will be developed in conjunction with the course description for each topic.
Fulfills:  Photography Elective (Photography Students); Studio Elective

PH305  Studio Photography  3 credits
The studio has become the chosen area of many contemporary fine art photographers. Still life, portraiture, and studio installations will be covered with strong attention to the support of image content using a variety of different staging and lighting techniques. Ambient, continuous source lights and strobe lights will be covered as well as aesthetic interpretations of subject matter and light. A final print portfolio will be required.
Prerequisites:  Photographic Media I and Digital Media I
Fulfills:  Photography Requirement (Photography students); 300-Level Studio Elective; Studio Elective

PH315  Photographic Applications  3 credits
Course Description: The goal of this course is to give students an understanding of professional and fine art aspects of the photographic medium. Various categories, in both advertising and editorial such as architecture, fashion, still life, sports and others will be discussed and assignments geared towards the exploration of each area. Also covered are marketing, self-promotion, resumes, client proposals, copyright and the knowledge of business organizations such as ASMP that serve as a support and resource for the working artist. Multiple independent projects with written proposals and hard copy prints will be required along with a final portfolio in book form.
Prerequisites:  Studio Photography and Digital Media I
Fulfills:  Photographic Applications Requirement (Photography students); 300-level Studio Elective; Studio Elective

PH326  Multi-Media I  3 credits
This course is an introduction to interactive non-linear thinking using digital tools. A series of short exercises explore the relationships and transitions between images and other forms of information such as video, animation, sound and text. The various functions of interactive media are covered and may include CD-ROM production, kiosk design and Internet applications.
Prerequisites:  Digital Media I or Using Images or equivalent computer literacy or Permission of Instructor
Fulfills:  Time Based Media Requirement (Photography students); Photography Elective (Photography students); 300-level Studio Elective; Studio Elective

PH327  Multi-Media II  3 credits
Using the technical and conceptual skills developed in Multi-Media I, students continue their investigation of time-based media, animation and interactivity. A series of advanced exercises focusing on usability, information management and interface design lead to a final project. Through research and the development of flowcharts and storyboards, students build a final presentation supported by in-class discussion and review.
Prerequisites:  Multi-media I
Fulfills:  Time Based Media Requirement (Photography students); Photography Elective (Photography students); 300-level Studio Elective; Studio Elective

PH330  Advanced Color Projects  3 credits
Students investigate light and color as it is physically manifested and the manner in which it represented in the digital realm. This class covers the conceptual and theoretical aspects of color, human perception, and intention. Readings, class discussions and the analysis of works by artists using color materials will provide context and insight. Students will produce a portfolio of images that demonstrates an advanced understanding and use of color as an integral component of their project's content. Students will present their work and final project for critique.
Prerequisites:  Photographic Media II or Permission of Instructor
Fulfills:  Photography Elective (Photography students); 300-Level Studio Elective; Studio Elective
PH340 Contemporary Issues and Photography  3 credits
This class offers students an opportunity to work with various combinations of image components. Students experiment with original/ appropriated image elements and image / text combinations to create new meaning. Explorations include issues of identity, gender, culture and religious beliefs in the context of contemporary thought. Readings, videos and other artist's works will be used to trigger discussions prior to the given topics.
Prerequisites: Digital Media I
Fulfills: Photography Elective (Photography students); 300-level Studio Elective; Studio Elective

PH345 The Electronic Portfolio  3 credits
This course is an in-depth exploration of evaluating, editing and sequencing images, using wide criteria for selection, while focusing on the changing relationships of the parts to the whole. It covers a large variety of portfolio production options such as; PDF portfolios, on line web portfolios, on demand books, and hard copy generated from computer files. Photography will be the main vehicle for image transfer from different mediums to the computer. The integration of design elements and imagery is also essential for the final project of a personal website. This course is for students in all concentrations who have a sufficient body of work and wish to explore electronic methods of presentation.
Prerequisites: Digital Media I or Permission of Instructor
Fulfills: Photography Requirement (Photography students); 300-level Studio Elective; Studio Elective

PH352 Digital Media II  3 credits
This course is a continuation of Digital Media I with a strong emphasis on combining concept and craft within the context of digital manipulation and personal aesthetic intent. Students examine artists working in digital media, contemporary advances in digital technology, and their effect on the field of art and image making. Students develop proposals for independent projects which demonstrate knowledge of software choices, image construction, editing, sequencing and printing.
Prerequisites: Digital Media I
Fulfills: Photography Elective (Photography students); 300-level Studio Elective; Studio Elective

PH355 Advanced Traditional Photographic Processes  3 credits
In this advanced course students make exhibition-quality prints using silver based, black and white photographic processes. Topics covered in this class are technical as well as conceptual, they include: issues of traditional photographic representation in a digital world, the cross fertilization of digital and traditional processes, advanced exposure and development of negatives, archival processing and presentation, and techniques that provide for optimum control in the darkroom. Intensive darkroom time and demonstrations of advanced printing control will refine students printing skills. Assignments, independent projects, written and oral presentations, and critiques will challenge and expand students’ visual skills and their ability to communicate their ideas. A final portfolio of prints will be presented to receive credit for the course.
Prerequisites: Photographic Media II, or Permission of Instructor
Fulfills: Photography Elective (Photography students); 300-level Studio Elective; Studio Elective

PH358 Media Projects  3 credits
This is an opportunity for advanced students to work independently or in small groups in a structured critical environment. The final project of this course is a public presentation which incorporates one or more of the following media forms: video, audio, multi-media, film and stills.
Prerequisites: Audio and Video Media I
Fulfills: Time Based Media Elective (Photography students); Photography Elective (Photography students); 300-level Studio Elective; Studio Elective
PH360  Documentary II  3 credits
This is a course for students who want to continue to pursue the documentary form. The course covers traditional and experimental approaches to documentary using a case study method. A variety of visual imaging systems will be explored, including video, animation, still images, and other historical material. The primary aim of the course is the production of short documentaries based on ideas brought into the class by students or outside clients. Considerable time will be spent in viewing and discussing examples of the form and locating a point of departure for students’ individual or group projects.
Prerequisites:  Documentary I or Animating Facts, Issues and Events or Permission of Instructor
Fulfills:  Time Based Media Elective (Photography students); 300-Level Photography Elective (Photography students); 300-level Studio Elective

PH399  Topics in Photography and Video  3 credits
This course provides an in-depth study of a topic in Photography. The topic may be selected to take advantage of special events, to allow further exploration of a subject covered in a preliminary way in other courses, or to explore areas not sufficiently covered by the regular class rotation.
Prerequisites:  Prerequisites will be developed in conjunction with the course description for each topic.
Fulfills:  Photography Elective (Photography Students); 300-Level Studio Elective; Studio Elective

PH900  Independent Study in Photography  3 credits
Advanced work in photography, supervised by a designated faculty member
Prerequisites:  only open to third or fourth year students with permission of instructor
Fulfills:
Printmaking

PR200  Relief Printmaking 3 credits
An introduction to the relief-printing process through woodcut and other relief media. Assignments cover design, drawing, color, and printing techniques with emphasis on individual projects, e.g., broadsides, portfolios and small books.
Prerequisites:  None
Fulfills:  200-level Printmaking Elective; Studio Elective

PR205  Screen Printmaking 3 credits
An introduction to screen printing methods of printmaking using primarily water-based processes and including direct, hand-cut, digital, and photographic stencils. Assignments cover design drawing, color and printing techniques.
Prerequisites:  None
Fulfills:  200-level Printmaking Elective; Studio Elective

PR210  Etching 3 credits
This course is an introduction to the intaglio process of printmaking. Through a series of projects, students develop work in dry point, etching, aquatint, softground, and relief etching. Class structure allows for work in various processes and encourages long-term projects.
Prerequisites:  None
Fulfills:  200-level Printmaking Elective; Studio Elective

PR215  Lithography 3 credits
This course is an introduction to the process of lithographic printing. The expectation is that students find a way to realize their ideas within the technical and conceptual limitations of the lithographic medium. Drawing and design are important; experimentation is encouraged.
Prerequisites:  None
Fulfills:  200-level Printmaking Elective; Studio Elective

PR220  Introduction to Print Media  3 credits
An exploration of contemporary print media that addresses a variety of print processes including digital, photopolymer, transfer, and screen prints. Students are introduced to print applications through a series of projects that engage issues of appropriation, transformation, and iteration. The course is also an introduction to several of the basic principles of transferring in from one surface to another.
Prerequisites:  None
Fulfills:  Lens, Technology and Time Elective; Printmaking Elective (Printmaking Students); Studio Elective

PR230  Mixed Multiples  3 credits
Relief printing, intaglio and screenprinting are the focus of this advanced course wherein traditional printmaking processes are combined with photographic, digital and other industrial or "commercial" processes. Stencils are applied and adapted to a variety of surface materials including metal, plastic, wood and masonite which are treated to produce intaglio, relief and collograph prints. Students experiment with presentations of the multiple in variable and controlled editions, books, installations and hybrid forms.
Prerequisites:  None
Fulfills:  200-level Printmaking Elective; Studio Elective
PR240  Printmaking and the Public Realm  3 credits
Working from the tradition of prints as a vehicle for political/social change, students employ traditional studio and commercial printmaking processes to move their work outside the studio to the street to engage a larger public. Projects address site-specific work with an emphasis on conceptual thinking, planning, and collaboration. Work is generated through various interactions among clusters of students with visiting artists and with populations beyond Montserrat. Typical projects might include a billboard, a printed and distributed Ezine, a storefront, installation, exchanges with other institutions, community projects, steamroller workshops, and other outside projects.
Prerequisites: None
Fulfills: 200-level Printmaking Elective; Studio Elective

PR250  Printmaking in Japan (Niigata, Japan)  3 credits
This is an introduction to the traditional relief-printing process used in Japanese woodcuts. Assignments will include instruction on composition, drawing, cutting, color, inking, registration, paper preparation and printing techniques with emphasis on developing individual projects. This course is taught in conjunction with printmaking faculty from Niigata College of Art and Design. Course work will be supplemented by museum, temple and gallery visits and will explore both traditional and contemporary printmaking in Japan.
Prerequisites: None
Fulfills: 200-level Printmaking Elective; Studio Elective

PR299  Topics in Printmaking  3 credits
This course provides an in-depth study of a topic in Printmaking. The topic may be selected to take advantage of special events, to allow further exploration of a subject covered in a preliminary way in other courses, or to explore areas not sufficiently covered by the regular class rotation.
Prerequisites: Prerequisites will be developed in conjunction with the course description for each topic.
Fulfills: 200-Level Printmaking Elective (Printmaking Students); Studio Elective

PR310  Monoprinting  3 credits
In this course monoprintmaking techniques are used for drawing. Emphasis will be on the creative and formal, on experimentation as well as on analysis of form. Students work from models, still life, and landscape and transfer the image from plates to paper. Application and wiping of inks, double inking and printing, and additive and subtractive methods are taught. Students learn the monoprint technique as a process of making images from observation as well as from imagination.
Prerequisites: One 200-Level Printmaking Course
Fulfills: 300-level Printmaking Elective; Advanced Drawing Elective; 300-level Studio Elective; Studio Elective

PR325  Printmaking Workshop  3 credits
Students work toward the production of a cohesive body of work. Assignments will address contemporary issues in Printmaking such as professional practice, traditional and alternative format and presentation, contemporary and historical traditions in printmaking. Print development, refinement of imagery, technical facility in editioning, curating and presentation are considered in relation to the traditions of fine art printing and collaboration.
Prerequisites: Two 200-Level Printmaking Courses and 45 credits.
Fulfills: 300-level Printmaking Requirement (Printmaking Students); 300-level Studio Elective; Studio Elective

PR330  A Printmaking Portfolio  3 credits
Students work toward the development and production of an editioned portfolio. Print development, refinement of imagery, technical facility in editioning, curating and presentation are considered in relation to the traditions of fine art printing and collaboration. Students will further their skills in plate preparation, ink qualities and their uses, paper selections, and that which may be explored are documentation and storage of artwork and presenting prints through competitions and galleries. The focus will be on individual development of a portfolio, in addition students may participate in exchange of finished portfolios.
Prerequisites: One 200-Level Printmaking Course
Fulfills: 300-level Printmaking Elective; 300-level studio elective; Studio Elective
PR340  Visual Narratives  3 credits
In this course, students will address their contemporary environment through projects that explore narration, sequence and the series. Drawing, which is the basis of projects, is used to create templates for printmaking. Techniques include etching, monoprinting, relief (including found objects) and combinations of these processes. Artists discussed may include Thomas Nast, Odilon Redon and Goya. Students will be encouraged to utilize their Major interests as well. Course work consists of both directed and individual projects with an emphasis on the integration of drawing and printing, supplemented with seminar style discussion of selected texts.
Prerequisites:  One 200-Level Printmaking Course
Fulfills:  300-Level Printmaking Elective (Printmaking Students); 300-Level Studio Elective; Studio Elective

PR345  Printmaking Through the Social Lens  3 credits
Throughout the advent of the technology to reproduce images, artists have used these tools to help effect changes in their direct environments. From the Gutenberg press and the distribution of knowledge in book form, the Works Progress Administration artists, the propaganda posters of both World Wars, to the movement of independent self-published zines, artists have used the reproducible image to communicate with the world. This course considers the history of printmaking in the context of a studio class. Through the exploration of how artists have used printed matter to communicate with their times students will create directed and self-directed projects based on their research. Clear directed writing about their research will supplement the students’ investigations. Techniques may include letterpress, lithography, etching and digital output. By looking at strategies artists have used over time students will appropriate these techniques and ideas into their own work.
Prerequisites:  One 200-Level Printmaking Course
Fulfills:  Printmaking Elective (Printmaking Students); 300-Level Studio Elective

PR350  Beyond the Wall  3 credits
This course is a survey of contemporary issues in printmaking beyond the traditional format of the print displayed on the gallery wall. Students in this class will explore issues of iteration, scale and installation in contemporary print work with an emphasis on moving beyond the rectangle. Projects may include both digital and traditional processes and will explore both 2-D and 3-D formats. Artists for discussion will include Nancy Spero, Judy Pfaff, Swoon, Nicola Lopez, Dennis McNett and Ryan McGinnis.
Prerequisites:  One 200-Level Printmaking Course
Fulfills:  Printmaking Elective (Printmaking Students); 300-Level Studio Elective

PR399  Topics in Printmaking  3 credits
This course provides an in-depth study of a topic in Printmaking. The topic may be selected to take advantage of special events, to allow further exploration of a subject covered in a preliminary way in other courses, or to explore areas not sufficiently covered by the regular class rotation.
Prerequisites:  Prerequisites will be developed in conjunction with the course description for each topic.
Fulfills:  300-Level Printmaking Elective (Printmaking Students); 300-Level Studio Elective

PR900  Independent Study in Printmaking  3 credits
Advanced work in the student's major field of study, supervised by a designated faculty member.
Prerequisites:  One 300-level printmaking course. Only open to third and fourth year students.
Fulfills:
Sculpture

SC200 Sculpture I  3 credits
Sculture I is an introduction to basic techniques and practices of sculpture using materials such as wood, plaster, steel, stone and found objects. Students work on a series of projects involving objects, constructions, installations and conceptual issues which culminate in comprehensive final works. Group critiques, class trips and slide lectures complement the in-class working sessions.
Prerequisites:   Three-Dimensional Design
Fulfills:   Sculpture I Requirement (Sculpture students); Studio Elective

SC203 Figure Modeling  1.5 credits
This course investigates the basic skills and concepts of modeling from the human form. Students work in class from live models on a series of figure studies that stress form, structure, and gesture relationships. This course complements the figure analysis of Life Drawing I and the more conceptual concerns of 3D Design.
Prerequisites:   None
Fulfills:   Figure Modeling Requirement (Sculpture Students); Studio Elective

SC205 Sculpture II  3 credits
In Sculpture II, students continue to investigate materials and processes relative to the three-dimensional arts. Students work on a series of problem sequences leading to final works investigating different issues than those encountered in Sculpture I.
Prerequisites:   Sculpture I
Fulfills:   Sculpture II Requirement (Sculpture students); Studio Elective

SC206 Ceramic Sculpture  3 credits
This course covers basic methods of hand-building and investigates experimental use of clay as a sculptural medium. Students gain an understanding of the transformative nature of clay from a plastic to rigid state. Basic techniques include pinching, slab forming, coil building, carving and press forming to create freestanding and relief forms. More experimental uses of clay introduce cross-disciplinary and larger scale options. Slide and video presentations referencing historical and contemporary work will supplement the studio work.
Prerequisites:   Three-Dimensional Design
Fulfills:   Sculpture Elective (Sculpture students); Studio Elective

SC207 Sculpture: Multiples and Series  3 credits
This course introduces students to a wide range of mold-making processes with which to create sculptural work. Students investigate the application of multiples in relief structures, free-standing forms and installation. Contemporary and more traditional techniques are explored using plaster, clay, wax, latex and paper pulp. Students work on a series of conceptually related projects providing the opportunity to explore personal aesthetic in depth. Slides, readings and documentation drawn from contemporary and historical sources supplement the course.
Prerequisites:   Three-Dimensional Design
Fulfills:   Sculpture Elective (Sculpture students); Studio Elective

SC212 Fabrication Methods in Wood  1.5 credits
Students gain an understanding of the material characteristics of wood through the proper use of tools and a variety of construction techniques. The course begins with a series of simple projects (a frame, a small shelving unit, and a box) that introduce the use of the table saw, miter saw, jointer plane, and several methods of joinery. Students further develop skills by planning and executing projects of their own choosing. More advanced methods such as spline joint, frame, and panel construction, and lamination procedures to produce curved forms are covered in the second half of the semester. The course will be beneficial both to those wishing to acquire woodworking skills for the first time and those who are already familiar with the basics and want to gain greater proficiency.
Prerequisites:   Three-Dimensional Design
Fulfills:   Requirement Elective (Printmaking and Sculpture students); Studio Elective
SC213  Fabrication Methods in Metal I   1.5 credits
Students learn technical and practical methods used to manipulate metals into objects of their own design. The course begins with the basic processes of oxy-acetylene bending, welding, and cutting, followed by more extensive methods of mig welding, plasma cutting, brazing, and stick welding. The course is beneficial both to those wishing to acquire skill in this area for the first time and those who are already familiar with the basics and who want to gain greater proficiency.
Prerequisites:  Three-Dimensional Design
Fulfills:  Requirement Elective (Printmaking and Sculpture students); Studio Elective

SC214  Fabrication Methods in Metal II   1.5 credits
Students will learn advanced technical and practical methods used to manipulate metals into objects of their own design. The course is a continuation of SC213 and begins with an overview of the basic processes of oxyacetylene bending, welding, and cutting, followed by more extensive methods of mig welding, plasma cutting, brazing, and stick welding. Students will then expand upon this to include basic blacksmithing. This practice will stress more advanced fabrication methods in mechanics and structure of metal sculpture. It is designed to benefit those who are already familiar with the basics and want to gain greater proficiency in metalworking.
Prerequisites:  Three-Dimensional Design, Fabrication Methods in Metal I
Fulfills:  Studio Elective

SC218  Flexible Structures   3 credits
In this course, students explore the relationship of the internal structure of form and its surface through the manipulation of flexible materials and texture. Working primarily with paper and cloth, along with wood, wire and stiffening agents, students devise a variety of methods to create structure. Emphasis is placed on expressive use of material and investigation of the interdependence of material and form. Slides, readings and documentation drawn from contemporary, as well as other sources supplement the course.
Prerequisites:  Three-Dimensional Design
Fulfills:  Sculpture Elective (Sculpture students); Studio Elective

SC220  Interior/Exterior Installation   3 credits
In this course, students explore a variety of materials and approaches to sculpture in relation to specific in-door and out-door sites (chosen by instructor and students). Students look at how the evolution of a sculpture, sculptural activity and personal voice are affected by external considerations such as: location, physical conditions, usage and viewer response. Within this context the course will also touch upon contemporary issues surrounding Public Art. Students will be given the opportunity to execute a work of "public art" during the semester.
Prerequisites:  Fabrication Methods or Sculpture I
Fulfills:  Sculpture Elective (Sculpture students); Studio Elective

SC225  Warm Glass Methods   3 credits
This course is designed to teach the basic skills for working with kiln formed glass: fusing, inclusion, slumping (thermoforming), frit casting, kiln casting, pate de verre, and using molds and drop rings to produce forms. Each student designs a project in each area, while learning how to operate a kiln, glass grinder, and glass cutter. We will look at contemporary sculpture in glass, and how it can be incorporated into sculptural practice.
Prerequisites:  Three-Dimensional Design
Fulfills:  200-Level Sculpture Elective (Sculpture Students); Studio Elective

SC230  Drawing in Space   3 credits
Drawing is a vital tool to all artists for visual communication. Our understanding of drawing is often limited to specific materials used within a two dimensional frame. This course challenges students to bring what they know about line, pattern, shape, mark-making, shadow, surface, texture, etc. to a three dimensional space. Students will explore how working in literal space can change our perception of drawing and how drawing can expand our perception of sculpture, through exploration with material and technique, drawing, installation and object making.
Prerequisites:  Three-Dimensional Design, Drawing I
Fulfills:  200-Level Sculpture Elective (Sculpture Students), Studio Elective
**SC255  Puppets  3 credits**

This course will introduce the methods and processes of building sturdy and movable character puppets. While there is a particular emphasis on creating characters for stop motion animation, students interested in more traditional puppet performance can also benefit from the variety of assembly techniques explored. Topics covered include armature building, simple performative storytelling, character creation, basic sewing, and construction with foam, plasticine clay and found materials. Students will also explore digital and 3d printing tools to develop iterative features and lip-syncing for stop motion animation.

Prerequisites:  None
Fulfills:  A+IM 200-Level Elective (Animation Students); 200-Level Sculpture Elective (Sculpture Students); Studio Elective

**SC260  Digital Sculpture  3 credits**

This course introduces various techniques for creating sculptural projects using 3-D printed objects. Students explore contemporary and experimental uses of digital 3-D printing including prototype development, toy making, composite form and hybrid imaging, narrative, multiples, mold making and the use of schematics to create proposals for large-scale sculptures. Students will spend time in class learning tools, and developing and discussing projects ideas. 3D Printing and actual project development will occur outside of class time.

Prerequisites:  3-Dimensional Design or Permission of Instructor
Fulfills:  A+IM 200-Level Elective (Animation Students); Digital Sculpture Elective (Sculpture Students); Studio Elective

**SC299  Topics in Sculpture  3 credits**

This course provides an in-depth study of a topic in Sculpture. The topic may be selected to take advantage of special events, to allow further exploration of a subject covered in a preliminary way in other courses, or to explore areas not sufficiently covered by the regular class rotation.

Prerequisites: Prerequisites will be developed in conjunction with the course description for each topic.
Fulfills: 200-Level Sculpture Course (Sculpture Students); Studio Elective

**SC305  Sculpture Workshop  3 credits**

Students choose materials and issues for their projects and are expected to complete a series of related works. Individual research of critical issues, group discussions of writings about sculpture, and trips to exhibitions, technical facilities, and sculptors' studios are important aspects of the course.

Prerequisites: Sculpture II or permission of instructor
Fulfills:  Sculpture Workshop Requirement (Sculpture students); 300-level Studio Elective; Studio Elective

**SC309  Kinetic and Interactive Sculpture  3 credits**

This course provides technical skills and an aesthetic vocabulary for students using kinetic and robotic devices in their work. Following a rudimentary introduction to electronics, students build simple kinetic devices that explore issues of gesture, initiation, duration, delay and action/reaction. Initial projects will involve connecting motors, gears, sound, lights, and other devices to sensors (motion, light, sound, pressure) in response to viewer presence. In the second half of the semester students integrate computer control into the creative process, beginning with a history of automatons, robotics and interactive artworks. Using programming, students alter the behavior of devices they have constructed using software timers, counters, and sensitivity control.

Prerequisites:  Sculpture I for Sculpture concentrators; 45 earned credits for non-Sculpture concentrators
Fulfills:  Digital Sculpture Elective or 300-Level Sculpture Elective (Sculpture students); 300-level Studio Elective; Studio Elective

**SC335  Innovations in Stone and Wood  3 credits**

This course is designed to investigate and challenge traditional approaches to the carving of wood and stone. As such, after basic techniques of carving are addressed for materials, other issues pertaining to subtractive and additive methods for creating sculpture will be explored. Studio time will be engaged with the consideration of mixed media and multiple forms within which the carved form will become a part of the composition. Assigned and student driven projects will be undertaken throughout the term. An on-going dialogue discussing contemporary sculptors¹ work in these mediums as well as group and individual critiques of individual projects will augment the studio work. A field trip will be undertaken during the semester if time permits.

Prerequisites:  Sculpture I
Fulfills:  Sculpture Elective (Sculpture students); 300-level Studio Elective; Studio Elective
SC399    Topics in Sculpture    3 credits
This course provides an in-depth study of a topic in Sculpture. The topic may be selected to take advantage of special events, to allow further exploration of a subject covered in a preliminary way in other courses, or to explore areas not sufficiently covered by the regular class rotation.
Prerequisites: Prerequisites will be developed in conjunction with the course description for each topic.
Fulfills: 300-Level Sculpture Course (Sculpture Students); 300-Level Studio Elective

SC900    Independent Study in Sculpture    3 credits
Advanced work in sculpture, supervised by a designated faculty member.
Prerequisites: only open to third and fourth year students with permission of instructor
Fulfills:
Senior Fine Arts Seminar

FA400 Senior Fine Arts Seminar I  6 credits
Senior Fine Arts Seminar I & II is a yearlong major program of independent studio work. Students may choose to concentrate in animation, painting, photography, printmaking, sculpture or self-directed study. The Senior Seminar Program requires and fosters a high degree of self-discipline, seriousness and artistic maturity as each student prepares a substantial body of work under the guidance of seminar instructors and faculty advisors. A faculty committee meets with each student over the course of the semester to discuss the student's work and progress in the program. Each Senior Seminar participant works independently in a designated studio space and produces a coherent body of artwork by the end of the academic year.

Senior Fine Arts Seminar I and II are six credit courses that meet twice a week. The program consists of three components. The first addresses the development of critical awareness through discussions of assigned readings with an art historian specializing in contemporary art. The second component involves studio based group interactions that often include the participation of a visiting artist. In conjunction with these interactions, each student works closely with a faculty advisor throughout their senior year. Senior Fine Arts Seminar participants are expected to work intensively in their studios beyond the required weekly meetings to successfully complete the program and receive credit.

At the conclusion of the senior year, each student presents a comprehensive body of work in a group thesis exhibition. Senior work is also exhibited to the public in a graduation exhibition.

Prerequisites:  See Senior Program Entrance Criteria
Fulfills:  Senior Fine Arts Capstone Requirement (Painting, Photography, Printmaking, and Sculpture Students); A+IM Capstone Requirement (A+IM Students); Book Arts Capstone Requirement (Book Arts Students); Interdisciplinary Capstone Requirement (Interdisciplinary Students)

FA401 Senior Fine Arts Seminar II  6 credits
Senior Fine Arts Seminar I & II is a yearlong major program of independent studio work. Students may choose to concentrate in animation, painting, photography, printmaking, sculpture or self-directed study. The Senior Seminar Program requires and fosters a high degree of self-discipline, seriousness and artistic maturity as each student prepares a substantial body of work under the guidance of seminar instructors and faculty advisors. A faculty committee meets with each student over the course of the semester to discuss the student's work and progress in the program. Each Senior Seminar participant works independently in a designated studio space and produces a coherent body of artwork by the end of the academic year.
